

COVERT ROAD REFUNDING BONDS EXCHANGED

A number of bondholders in the Farmington district are included in the announcement by the state highway department that more than half of \$4,600,000 worth of Covert road refunding bonds have been turned over to bondholders in 19 assessment districts since May 1, the date the exchange started.

The announcement said that 2,695 refunding bonds have been exchanged for old issues while 1,008 remain to be exchanged. The bonds are mostly in \$1,000 denominations. The entire issue is expected to be exchanged not later than Nov. 1.

State Highway Commissioner Murray D. Van Wagener, acting as the fiscal agent for all inter-county assessment districts authorized by the Covert Road Act, set up the new bonds with maturities running from 10 to 20 years. The old issues are serial bonds with maturity dates ranging all the way from 1933 to 1941. Assessment districts affected by the refunding plan are in Washtenaw, Oakland, Monroe, St. Clair, Macomb, Sanilac, Wayne, and Lenawee counties.

LOCALS

Mr. and Mrs. Robert Van Marter entertained several guests from Detroit and Farmington on Sunday, June 12. Mr. and Mrs. Van Marter celebrated their silver wedding anniversary on this day.

Mr. and Mrs. T. R. Whitlock and children, Maxine, T. R. Junior, and Denny are vacationing with relatives and friends at Harriburg, Indiana.

Mr. and Mrs. Jane Hendrie and children, Edward and Neva Rose of Redford and Mrs. Katie Durham of Clarecove were in Farmington on Friday, June 12, for a social call on Mr. and Mrs. Howard Durham.

Mr. and Mrs. Erwin Wagner of Northville were Friday evening callers at the home of Miss Winifred Walling.

Mr. and Mrs. Ralph Hoffman and family have moved into their new home on Edward street.

Mr. and Mrs. Charles Taylor of Northville were Tuesday and Wednesday guests of Mr. and Mrs. Harry Wolfe.

Mr. and Mrs. Erval Clark and daughter Kay, and Mrs. James Heenev of Northville were Sunday guests of Mr. and Mrs. Spencer Heenev.

Mr. C. J. Wellington, son of Mr. and Mrs. P. C. Wellington will leave for Camp Bryan, Boy Scout camp at Little Fish Lake on Sunday, June 21.

Dr. G. F. Weaver was called to Charlevoix on Monday, June 8, because of the serious illness of his mother, Mrs. Flora Weaver, who died on Tuesday, Mrs. Weaver and children, Bob and Mary, went to attend the funeral on Saturday. Surviving Mrs. Flora Weaver are her three children, Dr. G. F. Weaver of Farmington, Mrs. D. C. Gaffney of Lincoln, Nebraska, Mrs. T. G. Fineman of Charlevoix, as well as her husband, Geo. W. Weaver.

Mr. and Mrs. E. H. Belknap, who have been spending the past few weeks at Tiverton, Ontario, spent a few days at their home here last week. They also attended the funeral of Mrs. Belknap's sister, Mrs. Julia Swartz, in Detroit.

Fate of Alexander I
The bleak stretches of Siberia cherish a weird legend that Czar Alexander of Russia did not die, as announced, on November 19, 1925, but that he quit the throne and took up the life of a wanderer. As proof, peasants in western Siberia reported that they had often seen a mysterious stranger, who resembled the czar, pass through their villages, asserts a writer in the Philadelphia Record. Officially, however, this ruler caught a cold and died. His death was mourned sincerely, for he had encouraged education and science and had instituted other reforms. His last throne in 1901, was to free the serfs of the Baltic provinces.

Campaigns of Whispering Old Custom in Britain

Whispering campaigns are not new, says the Manchester Guardian. One of the stories against the duke of Newcastle was that he ran to George II, crying out that Pitt's favorite general was quite mad. "Mad, is he?" replied the king. "Then I hope he will bite some others of my generals."

A famous case nearer our own time was that of William Ewart Gladstone. It was not enough for the Tories of the seventies and eighties that Gladstone should be bad; he must be mad, too. A Tory member was said to have remarked to a Liberal: "We are much better off than you for a lender; ours is only an unprincipled second, but yours is a dangerous lunatic."

There were all kinds of stories about Gladstone's "madness," generally associated with his collection habits. Not only were extravagant things said about his china collections but it was reported quite gravely that he had been in a toy shop and had ordered the entire contents to be sent to his home.

The Saar

Industrial Panorama in the Saar.

Prepared by National Geographic Society, Washington, D. C.

THOUGH barely 738 square miles in area and with fewer than 250,000 people, the Saar has been one of Europe's most publicized regions since the World War. Powder keg of Europe; witches' cauldron; political hot spot. For years such graphic labels have been tacked onto this small but highly industrialized region lying north of Alsace-Lorraine between France and Germany.

From the days of Attila and the Caesars down to Foch and von Hindenburg, its valleys and wooded hills have rocked and echoed to the tramp and shouts of marching armies.

Geographically, the Saar is an irregular patch of hilly land crossed by small valleys. It lies alongside Luxembourg, forms a buffer state between France and Germany, and was cut out of the German states of Prussia and Bavaria.

With a population about equal to that of Boston proper, it shelters more than 1,000 people per square mile, one of the most densely settled areas in all Europe.

Only such miniature European states as Andorra, Liechtenstein, San Marino and Monaco are smaller than this tiny, yet dramatic country. America knows no state so dwarfish. Delaware is about three times the Saar's size, yet has less than a third its population.

Saarbrücken, metropolis of the Saar, has only 135,400 people; yet in one year Saar trains haul 60,000 passengers!

Sit in any sturdy cafe at Saarbrücken, watch the guests eat red cabbage and boiled pork, or sip flat steins of beer as the band plays heavy Wagner music, and the place seems just another German industrial center.

But look into its eventful annals, or make a careful trip about its historic roads and ruins, and you find a land with a past peculiar to itself.

Saar Problem in Caesar's Time.
There was, in fact, a Saar problem even in Roman times, when blond men from the east of the Rhine already had invaded this basin. In Caesar's Commentaries (now you read of these early German settlers. One Roman report of the time says that 120,000 barbarians, ennobled of Gaul, had settled here.

WHO ARE YOU? The Romance of Your Name

By RUBY HASKINS ELLIS

A Lincoln?

THIS is a place name taken from the town of Lincoln, in Lincolnshire, England. The name is derived from the word lin, found in Gaelic, Welsh, and Cornish-British, which means a pool, pond or lake, and coin, which signifies a ridge or neck of land, so called from the situation. The town of Lincoln was located on the top and side of a steep hill. So evidently the name came from the association of the two places, "the hill by the lake."

This was the beginning of the name, but the family is found later to have been seated for many generations in the town of Hingham, County Norfolk, England. It is from the Norfolkshire Lincolns that the American Lincolns trace descent.

Thomas Lincoln came to America from Hingham, England, in 1633, and was followed in 1637 by his brother Samuel. They settled in Hingham, Mass., named for the town in their mother country. Samuel married Martha—and among their ten children was Samuel, through whom came the governors of Massachusetts, Levi Lincoln, father and son, and Enoch Lincoln, who became the governor of Maine.

The fourth of Samuel was Mordecai, who married Sarah Jones. They located in Scituate, Mass., and among their five children were Mordecai, Jr., and Abraham, who moved to Monmouth, New Jersey.

Their son, John, located in Virginia, where he married Moore. They had four sons and several daughters. Among the sons was Abraham, who married Mary Shipley, of North Carolina. His son, Thomas Lincoln, was the father of Abraham Lincoln, sixteenth President of the United States. Abraham Lincoln's grandfather re-

located to Mercer county, Kentucky, in 1828, and a tract of 400 acres of land on the south side of Licking creek, where he built a log cabin near what is now the city of Louisville.

Benjamin Lincoln, of Massachusetts, made a brilliant career for himself during the Revolution. At the outbreak of the war he was lieutenant and chief of militia. There were many other Lincolns who served in the American Revolution. Most of them were from the family stronghold, Hingham, Mass.

Among them were Amos, who assisted in throwing tea overboard in the famous "Boston Tea Party."

There were Lincolns in Pennsylvania also; Michael Lincoln served at Fort Mifflin under Captain Brady. There are Lincolns in every part of this country today, and many of them trace their lineage to one or another of the early settlers mentioned in this brief sketch.

Public Ledger, Inc.—WFO Service.

Still Mourning for Adonis
In the days of old, Gebel, the most ancient city in Phoenicia, was the seat of the Phoenician king. There on the banks of the River Nahr-el-Adonis, the river of Adonis, the women of Syria still lament the death of the beloved of the Phoenician king. The waters of the river swell the stream.

Invented Storage Battery
The electric storage battery was invented by R. L. G. Plante in 1859 and was improved upon by Faure in France and by Brush in this country about 1881. Plante used lead plates in a solution of sulphuric acid but there is no record of number of plates or cells employed.

Junior Red Cross members increased by 402,000 enrollees during the year which has just passed. Junior members carried on an exchange of correspondence with Junior members in 52 other countries having Red Cross Societies.

Alloes in England
Poland led in the grasses population of England and Wales in 1935, with 4,012, and the United States was second, with 37,420. Russia was a close third, with 30,333. Other figures, as contained in the census volume, just published, were: Born in Scotland, 888,450; Irish Free State, 30,676; Dominions and colonies, 225,864. Greater London yielded the following figures: Welsh, 115,122; Scots, 101,572; English, 84,145; Poles, 84,145; Russians, 24,565. Greater London had 1,007,119 inhabitants who were born in foreign countries.

Uses of Word Ether
The word ether has two distinct uses. It is the name of a volatile liquid used to produce anesthesia. It is also applied to a mysterious substance which is conceived of as pervading all space, thereby providing a medium for the transmission of light and radio waves. In the latter sense ether is merely a theoretical concept and is of decreasing scientific importance.

Caracul
Caracul is from hides of lambs or young sheep, and occasionally from goats. The older the lamb, the larger the curd and the less the value of the fur. The finer, softer caracul is from very young lambs and are comparatively expensive. Caracul is, on the whole, a poor deal less expensive than other furs, but the finer grades often cost more than, for instance, Hudson seal.

Benefit of Clergy
Originally, benefit of clergy was the privilege of exemption from trial by a secular court enjoyed by the clergy if arrested for felony. In time it included all who could read and write, since they were capable of entering into holy orders. It was abolished by George IV. King called one of his stories, "Without Benefit of Clergy," meaning without the religious rites of matrimony.

A Greek Satirist
Alciphron was a Greek satirist. His work, consisting of letters personally written by common people, tells much of contemporary domestic life.

Smoke
Smoke is a cloud of fine, unburned soot, charcoal or carbon ash, together with a small amount of mineral ash. All these become laden with moisture in a humid atmosphere, such as commonly precedes a general rain, and slowly descend. If the air is dry, little or no moisture is condensed on smoke particles, which remain light and soon become so scattered as to be imperceptible. If the wind is strong, smoke is soon widely scattered and lost, whatever the humidity.
