Old Standbys Best For Thanksgiving

If the family likes Mother's cooking then the old standbys are the best for that Thanksgiving meal.

That's the advice of Miss Marion Dixon, instructor in foods at Michigan State College. "The very word Thanksgiving," Miss Dixon observes, "connotes up visions of Mother's kitchen and we can practically see ourselves settled comfortably around the family dining table."

"Women who have eked Thanksgiving dinners for years may have a menu which they always have used and which spells success as far as members of their families are concerned. Their families might consider it mutiny if the menu were to be changed."

For those whose families are used to variety and surprises, however, Miss Dixon has prepared suggested menus.

"One would start with grapefruit juice. The main course would see roast capon for the centerpiece, mashed potatoes, green beans and broiled parsnips. Cinnamon apple salad, melba toast and cranberry ice and brownies and beverage would complete this meal."

Another menu using the familiar turkey would start off with tomato juice. Other items would be the dressing, baked onions and squash soufflé, apple pickles and celery, cranberry and orange salad, a thin piece of pumpkin pie and beverage.

Third of the suggested menus would center around roast beef. The start of the meal would be cranberry juice or home canned fruit juice. Baked squash, baked potato, broccoli, stuffed olives and watermelon pickles would be followed by hearts of lettuce with French dressing, pecan pie and beverage.

A fourth menu would feature baked ham. Icy cold fruit cup would start the meal. Candied sweet potatoes, green peas and broiled fresh tomatoes would be the vegetable portions. Roast radishes, carrot strands and ripe olives are suggested, followed by chocolate ice cream and angel food cake and beverage.

Thrilling Sea Story At Irving Theatre

Rudyard Kipling's famous story of far-off India, "Wee Willie Winkie," starring Shirley Temple and Irving McLaughlin, comes to the Irving Theatre for a two day engagement Friday. Coupled with this famous story is the breezy newspaper story, "Behind Headlines" with Lee Tracy and Diana Gibson.

Another of Kipling's famous stories, "Captains Courageous," one of the greatest sea epics ever written, starring Freddie Bartholomew, Spencer Tracy and Lionel Barrymore, opens a three day engagement at the Irving on Sunday, November 21. Also on the double feature program is the comedy screen, "Super Sleuth" with Jack Oakie as the "real" detective who solves a real murder just for the fun of it. Take some time out for hilarity and see it!

Robert Montgomery and Marion Davies come to the Irving Theatre Wednesday and Thursday in "Ever Since Eve," also in supporting roles are Patsy Kelly, Frank McHugh and Allen Jenkins. Together with "Ever Since Eve", is the thrilling story of a man who wrecked his career to stamp out a menace as ghastly as murder: "The Devil Is Driving," starring Richard Dix is really a picture you can't afford to miss!

Today's Freight Trains

AMERICA has always been a great user of railroad freight service. Ours has been a major dependence on that service.

Have America's railroads speeded up their freight service to keep abreast of this faster era?

America has the fastest freight trains in the world.

Many of them travel on schedules as rigid as passenger schedules. Many of them are speedier than passenger trains were 15 years ago. Many of them have cut from 5 to 20 to 30 hours off of their 1930 schedules.

Basically, America's freight trains have been speeded up 35% in the past six years. Freight trains with average speeds above 45 miles per hour are becoming the rule.

In 1922 the average freight train carried 676 tons of freight; consisted of 38 cars; maintained an average speed (including all stops) of 11.1 miles per hour, performed in the average hour a service equivalent to carrying 7,479 tons of freight a mile, with payments for loss and damage to freight amounting to \$1.11 per car loaded with revenue freight.

Today the average freight train carries 731 tons; averages 46 cars per train; has an average speed of 16.0 miles per hour; had an hour-performance equivalent of 11,718 ton-miles; and claims for loss and damage have dropped to 50 cents per loaded car.

A fast-moving world requires fast and efficient freight service. America's railroads are providing it.
