

## CHILDRENS SHOES HAVE FASHION NEWS

### CLASS PICTURES FOR GIRLS

Little girls go back-to-school in a variety of shapes and silhouettes. Soft and supple, less constrained, moving with the body — accurately describes the mood of fashion for the small fry.

#### **"Leather Industries of America" Shoe Features:**

The ties, ghillie or oxford for sport and dress wear are another classification for the young set. Softer leathers and suede in earthy colors has been taken up by all ages.

The work boot is also a girl's fashion for Fall. Jean boots, desert boots, ankle boots all with colorful lacings, metal eyelets on suede or earthy leathers. The oblique toe or beefier toe are news. The earth colors and crayon brights in leather lend themselves to the rugged looks.

### BOY'S PICTURES

The fashion direction for boy's through teen's wear represents a variety of styles for Fall '71. Color, pattern and texture in fabrics help inspire and support the specific trends. A sportier approach in styling is evident.

#### **"Leather Industries of America" Shoe Features:**

Shoe fashions for boys are in step with the times. Boots have been a favorite and now there is a wide choice for all ages. They are classic, western or army type. Dress or casual, all heights are in fashion.

The slip-on boot rising high on the foot shows stitching and strap details ranging from golden to reddened brown and also black in textured leathers. The slip-on is softer with refined straps in tonal combinations or textures.

## LEATHER SHOES

### FOR THE ENTIRE FAMILY FROM LIVONIA MALL

Find more of the Nationally known brand names in shoes at Livonia Mall than anywhere else in this area. Over 55 brands in thousands of styles in every price range . . .
