"Clean House" OF UNNECESSARY EXPENSES

It is a good idea to have a financial "house cleaning," too, now and then. We all have expenses which we could cut out without losing any real enjoyment but we let these unnecessary items accumulate like the old hats and shoes in our closets. We know we ought to throw the stuff away but through sentiment or lack of courage we hesitate.

Perhaps YOU ought to have a financial "house cleaning" right now. Plan better, and bank the difference.

Grasselli Spray Products

• Proper spraying practice with quality materials will result in less crop losses and higher yields. Start right with Grasselli Spray Products—preferred by growers for over a quarter century.

PRE-PINK
GRASSELLI Lime Sulfur Solution plus NuREXFORM Lead Arsenate will control Scab, Curculio and Bud Moth. If Aphids have not been controlled at this time the addition of Black Leaf "40" is recommended.

PINK APPLICATION AND PETAL FALL
GRASSELLI Lime Sulfur Solution plus NuREXFORM Lead Arsenate should be used for the control of Apple Scab, Curculio, and other chewing insects. In the petal fall application most growers prefer to use a milder fungicide for Scab control. Kopper's Flotation Sulfur Paste or SULFORON can be substituted for Liquid Lime Sulfur, as both of these finely divided products have given excellent Scab control under severe conditions in the past.

Use Grasselli Spray Products for better crop protection.
