New York Skyscrapers Form Back Drop For Air View of Fair

NEW YORK (Special)—This remarkable air view of the New York Fair shows the World of Tomorrow that has sprung up against the background of New York City of Today. The Trolley and Perisphere, theme of the New York Fair, are seen dominating the 1216 1/2-acre tract. At the lower right is the international area with its magnificent foreign pavilions grouped around the Court of Peace below the Lagoon of Nations. At the lower left is the Court of States. The Transportation Zone can be seen stretching out along the upper left of the Fair grounds. The picture shows the Fair's close proximity to Broadway and the skyscrapers of upper Manhattan. Actually the Fair is only 10 minutes from Broadway by Long Island Railroad, and about 25 minutes by subway. By motor the trip requires about 30 minutes, with 5 parking fields furnishing ample space.
