Q. What is 281-DRUG*
A 261-DRUG is a telephone counseling service. counseling, draft counseling, rehabilitation groups, rap groups, etc.
281-DRUG is a place to call when someone wants someone to talk to. We feel that this is a vital service in our community when so many people find it difficult to find an understanding listener.

Q. Who calls 281-DRUG?

A. Anyone can call 281-DRUG?

A. Anyone can call 281-DRUG. People call to talk about their problems or obecause they're lonely. Some call for referrals to counseling or for medical help. There is no particular age or isex that call. Some people call for information such as what certain types of drugs are or to find out where they can have a substance analyzed.

Q. How successful has 261-DRUG bears?
A. 261-DRUG has been averaging 200 to 400 calls each month. These calls have been for information, referrals, just to rap, emergencies or crisis calls (suicides, overdoses, bad trips etc.)

Many people have called us back to thank us for our help; others have followed our referral advice and have called back to inform us as to what they intend to do next. There has been a lack of publicity of 261-DRUG until enough volunteers could be trained to operate the lines. The phone service is now open seven days a week from 5 p.m. to 1 a.m. every day with volunteers answering the phones. The other times it is answered by a recording that gives emergency referrant and taken messages when the call been back.

If we were a police agency,
people would fear us and our

Q. Why aren't there

A. We are training more and
more people for the phones
and we hope to reach the goal
of 24 hour service as soon as
we have enough trained
people willing to man the
phones during the 24 hour day.

The only age requirement is

years old or older.
Q. Is it true that 281-DRUG
operators as Kor caller's
names?
A. This may happen, but the

operators ask for caller's names?

A. This may happen, but the volunteers are instructed to make it clear that a first name or an alias is perfectly all right. It is easier to call someone by name when you are talking to them then to feel uncomfortable because you don't want to call him "bey, you."

don't want to call him "bey, you."
Information besides the person's name may be important. For example, if one calls for a referral, it is a big help if we know approximately where be is calling from to give him the referral source closest to him. This information, name, location etc. is not used to trap? the caller: rather it is used to belp facilitate the counseling or referral process.
