(Continued from Page Two)

Another bottleneck is being felt already in many small towns where non-defense industries are being hard pressed to get raw materials needed for defense.

Washington is being urged to speed the letting of arms contracts in advance of the 1942 unemployment slump. The lag in blueprints and tooling is always greater than the worker believes it should be. Even if the war must continue on until 1943 and possibly 1944, as Washington is now assuming, industrial hard-times will prevail and inflated prosperity in many communities of Michigan unless red tape is slashed, action is ordered. Such is the governor's belief, and signs are bearing out his predictions.

### Tax Headache

The federal government's insistence that all defense equipment and production must be tax exempt, has sent chills up and down the backbones of both state and county officials.

In Wayne county it is estimated that shutting down automobile plants will remove millions of dollars annually from personal property assessments. It is questionable if tax exempt, what is going to happen? Figure it out for yourself.

Louis M. Nims, director of the state sales tax board, foresees an immediate decline in revenue if the federal government's policy prevails to waive all taxes on defense operations. Estimates of potential losses run from \$5,000,000 to \$15,000,000 although it is felt that eventually when the readjustment to defense production has been made the return of purchasing power will offset the temporary loss of revenue.

convention of the Michigan Grange, Dean E. L. Anthony of Michigan State college school of agriculture considered farmers not to buy larger farms, and more equipment from the new profits from higher-priced products in 1942.

Avoid the temptation, he warned, as an economic letdown from today's crazy spending is inevitable when the emergency ends. "We should know that as soon as this war is over, the world will return to its land, exhausted and too poor to buy our products. We will have a farm machine built for an excess demand."

### Civil Service

Political control of Michigan's state prisons is on the way out, according to Garrett Heyns, state corrections director, who says that the new civil service amendment will prevent the frequent turnover of wardens and state employees and make for more efficiency in our penal system.

In civil service tests Warden Simon R. Anousser of Marquette prison and Warden Warren J. Loege of Ionia prison failed to qualify for their positions.

Eligibles for their jobs include A. Hoss Pascoe, chairman of the parole board; Joel R. Moore, former warden at Jackson (appointed by Murphy); Dr. Wellington B. Juntunen, medical director at Jackson; and Hilmer Gelein, former corrections director.

## FLORIDA WILL BE THE NEXT TOPIC OF ADVENTURE SERIES

"Vacation in Florida," illustrated with new natural color motion pictures taking the audience on a 2,500-mile tour that includes every nook and cranny of this renowned holiday state, will be the first of six Tuesday evening travel lectures to be presented by the World Adventure Series at the Detroit Institute of Arts. Van Wormer Welsh will give this Florida lecture at 8:30 next Tuesday evening, November 11. Welsh's pictures prove that Florida offers comfortable accommodations and an exciting vacation to it even a modest budget. He starts at Jacksonville and covers the entire East Coast, including St. Augustine, Marineland, Palm Beach, Miami and the Overseas Highway to key West. He motors west over the famed Miami Trail and pictures the alluring cities and vacation spots of central and western Florida.

These six new travel lectures are designed to show Michiganders where they may enjoy exciting and exotic vacations without entering war zones. Following each lecture the speakers will answer questions about costs and itineraries. The six regions to be featured on consecutive Tuesday evenings are Florida, Guatemala, Mexico, the Bahamas and the Caribbean, California, and Arizona and the Southwest. Burton Holmes will be the closing speaker.

## Let Pig Make Hog of Himself

Social graces are to be ignored when a pig takes steps to make a hog of himself. But if a farmer is wise, let alone hospitable, he makes certain a hog gets a balanced diet. According to V. A. Freeman of the Michigan State College animal husbandry department, it takes 11 bushels of corn to make 100 pounds of pork. But when 12 pounds of tankage are fed, the corn requirement shrinks to 7 bushels and when 63 pounds of mixed supplement are fed it takes only 3 1/2 bushels of corn to add 100 pounds of gain.

## ANDY HARDY FILM AT CIVIC THEATRE STARTING SUNDAY

Appearing at the Civic Theatre on Friday and Saturday this week is another of the highly entertaining Topper series and this time it's "Topper Returns." Roland Young again plays in the leading role of the inimitable Topper, and supporting him are Jean Blondell, Carole Landis, H. B. Warner, Dennis O'Keefe and Billie Burke.

The story develops into a first-class mystery when Jean Blondell is stabbed to death as she sleeps in the room assigned to Carole Landis, who is accused of a homicide. Jean returns as a ghost and with the aid of Topper, determines who killed her. The companion picture is "Bad Man of Deadwood" with Roy Rogers. Another chapter in the serial "King of the Texas Rangers" will be shown, and there will be a cartoon feature.

On Sunday, Monday, and Tuesday, "Life Begins for Andy Hardy" with Mickey Rooney and Judy Garland is the key attraction. Andy is at one of the crossroads in life in this picture, as he must choose between college and life in the outside world. Andy has one month to decide and chooses to spend the time in New York strictly on his own. There he meets Jennett Hicks, played by Patricia Dane, who is a switchboard operator. She manages to have Andy spend most of his money on gifts for her and when Andy meets Betty, played by Judy Garland, in the park one day he is down to his last few cents. Andy becomes hopelessly involved, and it is not until Judge Hardy comes from Cleveland, and Betty intercedes that affairs are finally straightened out for Andy and he decides to return to Carvel.

"Dance Hall" with Cesar Romero and Carole Landis is the second picture. On Wednesday and Thursday the ladies will be given their choice of Constance Bennett comedies, and may have any one of the items offered to date, with values up to \$1.75. The movies are "Sweetheart of the Campus" with Ruby Keeler and Ozzie Nelson and "Passage from Hongkong" with Keith Douglas.

## Defense

(Continued from Page Two)

Rapids, Mich., and six other communities face severe unemployment because of material shortages and should be given special treatment in the award of defense contracts. A \$12,000,000 award for anti-aircraft gun mounts was given to three prime companies to be distributed among others in the household washer and ironer industry.

Price Administrator Henderson, after Canada abandoned the selective price ceiling system now practiced by the United States and substituted maximums on all commodities together with relative ceilings on wages, explained that he did not believe our own defense program has reached the stage where such measures are needed or wise. Nevertheless, he said, the action emphasizes the immediate need for enactment of the Emergency Price Control Bill as a "program for the immediate future."

Additional OPA action included the placing of two more industrial chemicals—acetone and butanol—under ceilings; the shifting of hide, kid, and calfskin prices to a shipping point basis; and an amendment to place processors and producers of continental raw cane sugar in a more favorable position.

Three leading producers of wood pulp for sale agreed to withdraw price increases, and thereby removed for the time being the necessity for a price ceiling. A second proven violator of the iron and steel scrap price schedule decided to refund sums collected in excess of the ceiling.
