First Legal Doe in 20 Years

To archer Harold Eldridge of Mendon goes the distinction of bringing down the first doe legally hunted in Michigan after 20 years of the one-buck law. It was taken at a camp deer, for camp purposes. Eldridge, hunting near Baldwin, shot this doe with an arrow from a 60-pound bow as it ran past a slow loop 50 yards away, and the animal went on another 250 yards before it dropped. Sales of camp permits on which does may be taken is expected to reach several thousand.

Cub Scout News

The various dens are hard at work this week fixing toys for the Christmas campaign ahead. Last year the boys had just enough toys for the last basket. Let's see that this tight squeeze isn't duplicated again this year by getting our toys into the hands of the Cubs.

At the monthly meeting of the P.T.A. Mr. Kohn, sponsoring chairman, announced the resignation of Howard Richards as Cubmaster. In accepting the resignation Mr. Richards for his very valuable work with the children of this community. The next pack meeting is to be the annual roll call meeting, December 2, and all Cubs and their parents are urged to attend. Incidentally, a new rule to stimulate parent interest has been put into effect this year. The rule states that a Cub may not receive a badge of honor unless one of his parents is in attendance at the meeting at which the honor is presented.

• Don't SEND A BOY ...

—use the
RIGHT SIZE BULB
for a good lighting job

Don't expect an underized bulb to provide good light in a lamp or fixture. Use a 150-watt bulb in your I.E.S. reading lamp. And for really excellent lighting, use the I.E.S. 3-1/2" lamp with 100-200-300-watt bulb, in many attractive styles. (We do not sell these lamps.) The Detroit Edison Company.

• Eyes GET TIRED TOO!

Use the
RIGHT SIZE BULBS
in your living room

Shovelling snow; using your eyes under poor light; BOTH burn up energy. But poor light wastes energy, causing eyestrain and nervous tension and fatigue. For reading, you should have a good lamp with at least a 150-watt bulb... preferably an I.E.S. Better Sight lamp. How are the lamps in YOUR living room? The Detroit Edison Company.
