policy on farm products.

Other important OPA action was to put ceilings on the price of domestic stores, which will be reduced in number by a recent limitation of materials, and on whole salers', jobbers', agents', brokers', and importers' prices of rugs and carpets, which will be curtailed by the OPA limit on wool. Manufacturers' prices on these floor coverings were permitted a slight rise from the ceiling already imposed.

Action On Cigarettes

After a large maker of cigarettes refused to withdraw a price increase, OPA imposed maximum levels on all manufacturers' prices for this product. If necessary, Administrator Henderson said, the ceiling would be extended to cover wholesalers and retailers.

Priority Aid For Industry

The Priorities Division gave help to mines and makers of mining machinery and to manufacturers of machine tools, airplanes and airplane and radio equipment, power-driven industrial lift trucks, elevators, escalators, and dumb waiters for war orders; and parts for furnaces to treat metals. A British refinery for aviation gasoline in the Caribbean received a high preference rating for necessary materials.

The newly formed Civil Air Patrol, which will take some of the burden of military aviation, was

offered priority assistance to get planes, parts, and accessories. And a war fashion note: OPA has suggested that stockings be made in fewer shades.

stated that he does not contemplate injecting such issues as the appropriation of funds for civilian non-defense governmental activities into the special session picture. This does not preclude action on other matters, mutually agreed upon, however. It is here that the bipartisan government idea may be put to another test.

"We would need a pretty clear understanding that there would be no opposition to any non-defense items brought into the special session," the Governor has been quoted as saying.

There has been increasing pressure upon the Governor from several of the state departments and commissions for additional funds, with which to operate for the remainder of the year. One such request comes from the Labor Mediation Board, which has been concededly under-financed from its inception. Most departmental budgets have been upset by salary increases ordered by the Civil Service Commission.

Some of these requests for funds may be considered if the executives reach a mutual agreement. They may furnish the test as to whether or not bi-partisan government is more than a dream.

Defying Superstition
Can Governor "Pat" Van Wageningen defy superstition and get away with it?

The Governor's "advisors" are said to have called his attention to the superstition of the Capitol that the governor who calls back the legislature for a special session pays with his job. The rumor is that the Governor paid some attention to those who begged him beware, but decided to risk his political neck anyway. So the legislature will come back. A survey of gubernatorial history does not bear out the superstition and indicates that some governors, who went down in defeat after calling back the legislature, would have lost at the polls anyway.

Governor Frank D. Fitzgerald called back the legislature late in 1936, but he had already been defeated at the November election and convened the special session at the request of Governor-elect Frank Murphy to consider social security legislation.

War-time necessity has chased away fear of the jinx from the "foolish" office.

Public Pressure

Sometimes, in the whirl of governmental procedure, John Q. Public rises up and takes over a function usually performed by special groups and interests. He puts pressure on the government for something HE wants.

From the outside, it looks as though public pressure is being recognized in the matter of bi-partisan administration of the

state's defense program. At any rate, public demand for some such arrangement may have something to do with action of state officials responsible only to the electorate. And such public pressure is not unwelcome to the officials of the bipartisan administrative board, composed of all the elective state officers, because it may remove some of the party pressure from their own necks.

AT THE REDFORD THEATER

Once again Spencer Tracy proves his right to his place as a two-time Academy Award winner with his portrayal of that favorite of fiction, "Dr. Jekyll and Mr. Hyde." Sharing honors with the star in the new picture, playing at the Redford Theater Friday through Monday, are Ingrid Bergman and Lana Turner.

Surprise of the M-G-M production is the casting against type of the two leading ladies. Contrary to expectations, Lana Turner is the sedate Beatrice Emery, and Ingrid Bergman the little "barroom entertainer," Ivy Peterson. Both prove their versatility in the unusual roles. One of the highlights of the drama is Miss Bergman singing "You Should See Me Dance the Polka" to the befuddled Mr. Hyde. Miss Turner, in her best role to date, proves herself a front-rank performer.

But it is Tracy's performance

which dominates the film. Admirable in his restraint, Tracy resorts to no gargantuan make-up to denote his transformation from the good Dr. Jekyll into the evil Mr. Hyde. With a minimum of facial horror, the star achieves his personality change through change of expression.

The Robert Louis Stevenson novel tells the story of young Dr. Jekyll, "scientist" interested in man's dual personality. He believes that in all men are good and evil. In some evil predominates over the good, in others the reverse is true. Over the objections of friends, colleagues and sweetheart, Jekyll continues his experiments in this field. He drinks the resulting potion. It is then his evil self asserts itself and he becomes Mr. Hyde.

Director Victor Fleming brilliantly handled the untold of the story.

of the overland expedition from Detroit to Cape Horn, will show natural color motion pictures of "Our Central American Adventure" at 8:30 next Tuesday evening, January 20. He pictures the expedition battling through the dense jungles of Guatemala, Honduras, Nicaragua and Costa Rica, surrounded by jungle animals, and helped by friendly natives. This second leg of the epochal journey ends at the Panama Canal.

AMERICA CAN BE DEFENDED

The Importance of Correct Cooking to Health

Today as never before we should realize the importance of food to health. A healthy America is a strong America. Equally important is the method by which these foods are cooked. So often in cooking, foods are robbed of their health-giving properties. In the case of vegetables, many valuable vitamins and minerals are poured down the sink, when the vegetables are drained after cooking. Other health-giving properties are sometimes destroyed by over-boiling and excessive contact with air. Have you been using your gas range to the fullest advantage? You can be sure that the meals you cook will build strong young bodies and promote good health by observing the simple rules at the right.

Avoid Income Tax Trouble In 1942

Keeping adequate financial records is the surest way to avoid tax difficulties. Not only does the federal law require the farmer to keep ample records but experience and common sense point the wisdom of such practice.

With the importance of farm financial records in mind, the Enterprise has been able to complete arrangements to furnish, in combination with a year's subscription to the paper, a copy of "Agricultural Records," the easy accounting system for farmers, at a special price of \$1.79.

The regular price is \$5.50 and only by offering the record system to you with a year's subscription to your newspaper can we supply it at this remarkable special price.

Here is how the offer works. If you are a subscriber to this paper, you merely extend your subscription for one year at the usual price and are thereby entitled to buy one copy of "Agricultural Records" at the special price of \$1.79. If

you are not a subscriber now, you may subscribe to the paper for one year at the regular price and become entitled to buy one copy of "Agricultural Records" for the special \$1.79 price.

If you think of trouble when you think of making income tax returns, you need a copy of "Agricultural Records" because it:

1. Requires no bookkeeping knowledge.
2. Takes only a few minutes a week.
3. Makes a permanent record of your income and expense.
4. Shows how to figure farm income and deductible expense for tax reporting.

We'll be glad to show you a copy of "Agricultural Records" and explain just how to use it. The whole thing is so simple that the explanation will take almost no time.
