LET FREEDOM REIGN
EVERY AMERICAN HOUSEWIFE HAS AN IMPORTANT JOB TO DO . . .

★ SAVE VITAMINS
★ SAVE FUEL
★ SAVE FOOD
★ BUILD HEALTH

Do All FOUR And In Addition
SAVE Time And Money . . .

FOLLOW THE U. S. DEPARTMENT OF AGRICULTURE'S RECOMMENDATION TO PRESERVE THE VITAMIN VALUE IN FOOD with "WATERLESS" COOKING

Ladies, put an end to cooking waste. Now as never before is the time to take full advantage of the health-saving, time-saving, vitamin-saving features your modern gas range affords. Follow the vitamin-saving waterless cooking method. Your modern gas range is designed to do this job to the letter.

Vitamins are valuable . . . don't pour them down the drain!

Waterless cooking helps keep vitamins in the food, saves minerals and natural juices, too. That's why foods taste better and are more nourishing. Planning of meals is most important if you are to have a properly proportioned and balanced menu. Equally important, however, is the cooking operation.

Don't pay good money for nourishing food—and then lose the health-giving vitamins when you cook it. You can be sure that the meals you cook will build strong young bodies and promote good health by observing the simple rules of the right.

★ For Greater HOME DEFENSE Cook with a Health-Saving Time-Saving, Fuel-Saving Modern GAS RANGE

Consumers Power Company

WHAT EVERY WOMAN SHOULD KNOW ABOUT VITAMIN-SAVING

1. Use very little water in cooking.
2. Cook vegetables for the shortest possible time.
3. Cover steams to keep in steam.
4. Avoid unnecessary stirring of vegetables.
5. Don't put in baking soda to brighten food colors.
6. Start vegetables in boiling water.
7. Drain three away vegetable liquids—use them in soups or cream sauces.
8. Keep foods as fresh as possible—use dependable automatic refrigeration.
9. Serve plenty of green vegetables.
10. Serve foods soon after cooking.
11. Basting is preferable to frying.
12. Low-temperature roasting saves vitamins and minerals.
