"AN ARMY TRAVELS ON ITS STOMACH". this is one fundamental that has not been changed in the technique of war. Likewise our civilian defense cooperation can be no better than our physical ability to meet our wartime responsibilities. But all the food planning and careful marketing in the world cannot preserve healthful vitamins unless care is exercised in the preparation of the food for

THE RIGHT KIND OF FOOD is especially important these days. It can mean the difference between giving your family foods rich in healthful vitamins—and serving meals that have very few vital elements. Vitamin saving is easy with modern gas cooking methods.

SAVE and CONSERVE FOR VICTORY!
