A New Movement Is Sweeping The Nation

It's The "I'LL DO MY BEST" Movement

There are no dues—no officers—no one has an ax to grind. It's a volunteer citizen's movement—with everyone trying to do his part. Why such a spontaneous movement?

BECAUSE—

"THE NATION needs to awaken to the full gravity of the peril that confronts it.

It needs to appreciate how badly we have been defeated in three months of war.

It needs to understand that it is possible for the United Nations and the United States to lose this war and suffer the fate of France and that this possibility may become a probability if the present tide does not change.

It needs to realize that there is grave chance of the Japanese pushing through the India and the Germans driving through the Near East, to join their armies and resources in an almost unbeatable combination.

It needs to get away once and for all, from the comforting feeling that while we may lose at the start we are bound to win in the end.

Only when fully aware of existing perils will the United States do its utmost. Pray God that awareness will not come too late, as it did in France.

Production Director Donald Nelson appeals for vastly increased industrial output on a 24-hour, seven-day basis—160 hours a week, in short, MAXIMUM production. Can we get it?

Not on the present basis—not under the psychology of recent years.

Not until we quit thinking in terms of less work for more money.

Not while there is greater concern about overtime pay than overtime production.

Not while farmer politicians are more interested in grabbing higher prices than raising more essentials.

Not while Government bureaucrats—created to meet a depression emergency that is ended—continue trying to grab for themselves money needed for armaments.

Not while an Army of Federal press agents clamors to promote and perpetuate activities that have no present need or value.

Not while congressmen try to put over-unnecessary canal and river schemes and take up defense officials clamoring for factories and contracts as if war were a great gray train.

Not while strikes hamper war production, despite a solemn promise that they would stop.

Not while the life-and-death need for uninterrupted production is used as a weapon to put over a closed shop.

Not while double time is demanded for Sunday work which is only part of a 40-hour week.

Not while fifth-columnists are pampered and enemy aliens move freely in defense areas.

Not while the grim job of preparing our home communities against air raids and sabotage is lagged upon with a lot of high-falutin', boondoggling, social service activity.

Not while pressure blocs clamor for bigger benefits, bounties and pensions.

We will not get maximum production, in short, unless, first, we fully realize our awful peril; and second, get over the "gimmies" of recent years:

Gimme shorter hours, gimme higher wages, gimme bigger profits, gimme more overtime, gimme less work, gimme more pensions, gimme greater crop benefits, gimme more appropriations and patronage, gimme some patents for my congressional district, gimme fess and dues to work for Uncle Sam, gimme ham 'n' eggs, gimme share-the-wealth, gimme \$30 every Thursday.

France had the gimmies, too—but then they killed the Germans were close to Paris. Then everybody went frantically to work—too late.

France has no gimmies today—except gimme food for my baby, gimme a place to lay my head, gimme death.

Will the United States wake up too late?"

This ad paid for by anonymous friend of "I'll Do My Best"

Think this over. We are not winning the war. It is going badly against us now. You can't listen to S. L. A. Marshall and be complacent or self-satisfied.

We need more and more production to support the men who have to do the fighting. In the future we all will have to make sacrifices that we scarcely dream of today. Everyone of us will have to do his best.

Think this over and make yourself a committee of one—and go to work among your neighbors and your fellow workers. You haven't any ax to grind—nothing to gain unless it's the satisfaction of knowing you are helping to create a new American unity and a will to win.
