

THE BLUE AND WHITE

YOUNG POETS STRIKE PATRIOTIC NOTE

Recently fourth graders wrote some patriotic poems for English, three of which appear here.

"SAVE"

Save all your shoes,
Or this war we will lose,
Save all your clothes
And your ribbon and bows.
Save all your books,
And save their looks.
Save all kinds of tin,
For this war we must win.

Anna Marie Ruch

"WE CAN DO OUR PART"

They will keep 'em flying
And we will keep on buying;
For all the men so brave
The red, white, and blue shall
wave.

Marilyn Flanz

WE CAN HELP

When you buy a defense stamp,
You help our soldier boys at camp;
When you buy a defense bond,
It shows on America you're fond.

So keep on buying bonds and stamps,
And of this war we'll have no
more.

Our soldier boys will keep us free,
But there's a job for you and me;
Some can knit sweaters for our
boys,
For they are the real Macys.
Some can work in defense plants,
We'll make these Japs look like
anis.

Anne Plumton

Sixth Grade Items

Mrs. Smith is reading to the sixth graders a very interesting book called "Lassie Come Home," by Knight. The story tells about a collie dog.

In history they are making a list of the early explorers and what they explored.

They are also studying about India and the present crisis and daily analyze the news concerning India and its problems.

TWO TEACHERS LEAVE FACULTY FOR OTHER WORK

Two members of the High School faculty, Miss Marie Ruch and Miss Mary Van Winkle, have resigned to accept other positions.

Miss Ruch, who has taught Commercial subjects for the last three years, left to accept a position in the office of the new Ford Motor plant, Miss Van Winkle is now teaching computer at Cleary College in Ypsilanti.

Mrs. Andrew Segan is instructing the typing and shorthand classes that Miss Van Winkle taught. Mrs. Segan's home is now Hibbing, Minnesota. She was graduated from St. Theresa's College of Winona, Minn., with a B.A. degree and received her M.A. from Columbia University.

Miss Eleanor Purman is teaching general mathematics, bookkeeping, business training, and retail selling classes in addition to doing her office work. Miss Purman plans to teach next year at the school employees another secretary.

DOROTHY GOERS RANKS THIRD IN D.A.R. CONTEST

Dorothy Goers, Farmington's school D.A.R. good citizenship winner, attended the D.A.R. State Conference at Jackson on March 27. The conference was held to decide who of the 229 candidates to be Michigan's representative at the National Conference held in Chicago.

Miss Goers went to Jackson with candidates from Walled Lake and Milford and attended the reception held at the Hotel Hayes at 10 1/2 a.m.

The three highest ranking pilgrims were announced at the beginning of the reception as: Jean Childs, Flint, first; Dorothy Cross, Bangor, second; and Dorothy Goers, third. The main judge was Mr. Voelker, president of the Grand Rapids college, who was also one of the speakers. Other speakers were Mrs. Wagner, the state conference chairman, and Lucile Barnes, the D.A.R. winner last year. Several musical numbers followed the speeches. Then the pilgrims went to the Hotel Utz for a luncheon. Following the luncheon a meeting was held and a group from Albion gave a play on Americanism. Several of the past winners gave speeches on their present work, and certificates were awarded to this year's pilgrims.

The faculty of Farmington High School, and her friends, believe that Dorothy has set a fine standard for future candidates.

Dramatics Class Gives Talent to Defense

"Ready Made Family" is the name of the play to be given by the Dramatics class of Farmington high school.

The proceeds from the play will go into a special fund that can be drawn from time to time for defense organizations asking the school for contributions.

This will be the first fund of its

Broken Mirror

The broken mirror superstition started long ago, when it was believed that the reflection in the glass was a person's own soul. If the mirror was shattered, the soul, too, was destroyed.

Letters To The Editor

April 6, 1942

Dear Sir:

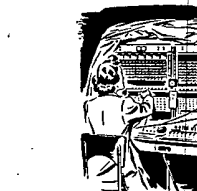

I am the son of Mr. and Mrs. Edward Kutschke of 30080 12 Mile Road, who have lived in Farmington for 15 years. I have been in the army six months, and have seen 15 states. I have been in two parts in Texas, one in Michigan and one in Georgia.

(The army is no so bad if you get in the right outfit. I have learned how to operate telephones, 165 mm. guns and also the 3 in. anti-aircraft guns. I can drive a truck the army way, and I know all about K.P. I think the best part of the army is the C.A.)

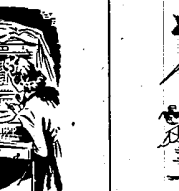

I expect to leave soon on a free boat ride for service over-seas.

I enjoy reading my home town paper very much, and am looking forward to receiving each issue.

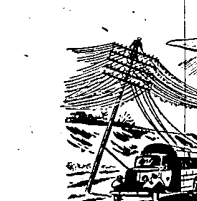

Sincerely,
Pvt. Edward Kutschke.

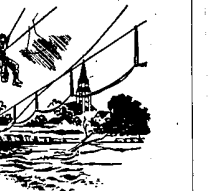

TELEPHONE OPERATORS who have stayed at their switchboards through flood or fire know what it means to face emergencies.

CABLE REPAIRMEN are used to tackling tough and unexpected jobs. They're ready to work night and day to restore cables to service.

MICHIGAN BELL construction crews are experienced in repairing pole lines and other telephone equipment smashed by sleet storms.

FIRE SOMETIMES pull central office equipment out of commission. Installation crews get the lines working again quickly.

THEY KNOW EMERGENCIES

The men and women of this company are accustomed to emergencies. For storm, flood and fire are foes that strike without warning. Of necessity, our people always are organized on an emergency basis.

Whatever war may bring, the experience gained in such emergencies by this telephone army will prove invaluable in

maintaining the country's communication network. * * *

Material shortages and war conservation orders make it impossible in some instances to supply telephone service as in the past. While every permissible effort will be made to satisfy public requests, war demands come first.

LOCALS

Mrs. Louis White attended a shower for Mrs. Stanley Ziemanek given by her sister-in-law Mrs. Hamilton White of Clarencerville.

Mrs. Alfred Smith entertained Miss Zaida Sibley, Mr. and Mrs. Brown of Detroit, Mr. and Mrs. Perry Wixom and Mr. and Mrs. Harold Jamison in celebration of the birthdays of Miss Sibley, Mrs. Brown and Mrs. Smith.

Mrs. Louis White gave a surprise birthday party for her mother, Mrs. Rena Lamb.

PAINTED POTS DETRIMENTAL

Painted pots have a slightly detrimental effect on plants. Unpainted pots are porous and permit evaporation and a transfer of water where-as painted pots prevent this.

AT THE REDFORD THEATER

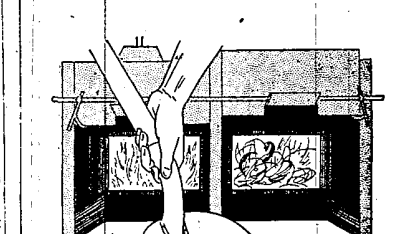

Entirely aside from its entertainment value—and it has been called the most exciting romantic adventure of the year—Walter Wanger's "Sun Down" which will open at the Redford Theater on Friday, is outstanding because of its spectacular settings. Laid on the border of Kenya and Somaliland in Central East Africa, "Sun Down" was one of the most difficult filming assignments ever attempted by a cameraman.

Early sequences of the picture were filmed at Acoma Rock, New Mexico, at an altitude of 7,000 feet, and another part in the Mojave Desert of California, 100 feet below sea level. In both places the sun was unusually brilliant, so much so that light meters would not register accurately. Another exciting sequence was filmed inside of a fantastic cave, which was pitch black. Cameraman Lang, in this instance, was again forced to work unaided by a light meter as the illumination was so slight that it flitted to register.

All in a day's work...

How salvaging even
FLOOR SWEEPINGS
helps the war effort

IN THESE DAYS of shortages and priorities, critical materials cannot be wasted. The Detroit Edison Company is salvaging even floor sweepings—the litter that falls to the ground from the reduction furnace, where insulation is burned from old wires and cables. Furnace sweepings consist of dirt, ashes, and bits of metal. All this residue is shoveled into a mechanical separator. The dirt and ashes are discarded, and the metals reclaimed.

This is all in a day's work—part of our business of running the Company efficiently. Efficient operation helps lower the cost of manufacturing and delivering electricity to our customers, bring better service at lower rates. Salvaged materials and equipment that produce revenue include old rubber, pipe insulation, brass bases from lamp bulbs, gaskets, lumber from old poles, lead-covered cable and copper wire, turbines and boilers. They include such items as cinders and tar, brass and scrap iron, paper and cardboard, firebrick, and more than five hundred other odds and ends.

Since the war, salvage and reclamation work has assumed added importance. Always a matter of economy and good business, it has now become a patriotic obligation. Critical metals are conserved, and the re-use of salvaged items often saves a great portion of the labor which entered into the manufacture of the original article. This releases additional man-hours for new production vital to the war effort. The Detroit Edison Company.
