

### Michigan Mirror

(Continued from Page Two)

A rubberless tire is also being studied by the Goodyear Tire & Rubber company. Officials have revealed that fabricated tires, made entirely without rubber, are being given road tests today.

Paul W. Litchfield, chairman of the Goodyear board, declared 18 to 24 months' time would be needed before any large amount of synthetic rubber tires would be available from the government-financed synthetic rubber plants already authorized.

William Palmer, manager of the Michigan Petroleum Industries committee, says the best Washington information he can obtain is distinctly bearish as to the prospect of synthetic tires for general civilian use.

Instead of synthetic rubber being made available to civilians, much of it may be required by our allies—British and Russians—for their own military needs.

The "Pontiac Plan" for cooperative automobile transportation, whereby neighbors ride together to save tires, will be adopted by dozens of industrial centers in Michigan, not as a matter of preference but as the only feasible method of solving the critical rubber situation.

Hope that the situation will be cleared up soon is declared by War Production Board officials to be wishful thinking, not justified by the facts.

J. B. Buckley, acting director of the "Pontiac Plan" for the state highway department, is of the belief that Americans are going to continue to kid themselves until President Roosevelt informs them of the rubber emergency. Living habits are not changed readily, he concludes.

A new kind of isolationism may result from this scarcity of rubber tires, changing living habits of Michigan families very noticeably as the months pass by.

People will shop at home; travel less to nearby cities.

They will take vacations close to home; travel less to nearby states. Summer cottages are in demand; cooperative delivery of food is being planned for lake resorts.

Michigan's tourist business should be good this summer at hotels and cottages; just fast for roadside taverns, cabins and isolated spots.

People are going to get better acquainted with their neighbors—especially the man who has an automobile with good rubber tires.

### Can't Solve Problem

The problem of finding the side of a square exactly equal in area to a given circular area is called the quadrature of the circle, or squaring the circle, and is impossible to solve, according to mathematicians.

### Victory

(Continued from Page Two)

minor violations and received letters explaining the rules. A small number appeared to have transgressed more seriously, and punishment is being studied. One large vacuum cleaner company was penalized for diverting aluminum from war needs.

The inventory and requisitioning branch of WPB listed 12 inventories in 17 categories, sorted by war. Large quantities of copper sheet and aluminum were taken over in two actions last week when the owners refused to sell.

Further tightening controls to get materials and machines for wartime needs, WPB issued new restrictions on tin, electrical appliances and heating pads, many pliances and industrial machinery, liquefied petroleum gas equipment, copper screening, tracklaying tractors, plumbing fixtures, lead foil, enamel can coatings, loola sponges, jute and quinine. Inventorying of supplies were frozen in a number of wholesalers, retailers and others.

Gasoline Cut Again  
The Division of Materials warned that war production at the instance of the United States may cause some curtailment in civilian power for civilian use late in 1942. This would affect supplies of newsprint.

At the same time, deliveries of gasoline to the East and the far Northwest were cut again, this time to two-thirds of the December-January-February average. WPB granted additional sugar to more than 10 areas where war activity has caused concentrations of population. To provide a limited quantity of tire re-treads for war workers, WPB amended its rubber orders so that passenger car capped stock can be made from reclaimed rubber with a little crude for cushioning.

New Rolling Stock to be Controlled  
The railroad industry was notified that materials will be made available during the rest of 1942 for 18,000 additional freight cars and 300 more locomotives, and that WPB will schedule production, and will control distribution of all new equipment on recommendation of the Office of Defense Transportation.

WPB also issued last week its limitation on women's clothes, eliminating such cloth-consuming extras as wide flares, all-around pockets and patch pockets but preserving essentials of present styles so that clothes will not be "dated."

The Office of Price Administration does not follow WPB limitations. Other OPA actions dealt with iron ore, anthracite, crude petroleum and motor fuel, lithopone, leather, pine products, paperboard, paper, sugar, dressed hogs, cocoa beans and cocoa butter.

### LOCALS

Mr. and Mrs. Harold Westfall were Sunday guests of Mr. and Mrs. John McClelland of Lake Orion.

Mr. and Mrs. Victor Kemp of Detroit were Sunday guests of Mr. and Mrs. Gust Pappas at their home in Glenn Meadows.

Mrs. Arnold Stolt and Mrs. Martin Stanch Sr. have returned home after an extended tour of the United States.

Mr. and Mrs. Fred Pennow of Plymouth celebrated their twenty-third wedding anniversary at the home of their daughter, Mrs. John D. Ehrler. It was also Mr. and Mrs. Ehrler's tenth anniversary.

Mr. and Mrs. Glen Auten and daughter Lucille, of Pontiac, Mr. and Mrs. Robert Muetter of Detroit, Mrs. Charles and Mrs. Betty Lee Quilf were Sunday guests of Mr. and Mrs. Ralph Auten.

Mr. C. V. Ayres, principal of Farmington High school, is ill at his home with scarlet fever.

Miss Shirley Bowerman leaves Friday for a week's visit in New York as guest of her cousins, Mr. and Mrs. J. W. Newman.

Mr. and Mrs. William Burnett and son Daniel were Sunday guests of Mr. and Mrs. Melborus Sturmy in Ann Arbor.

Mrs. Fred Cook and Miss Ruth Bacon were in Monroe Monday afternoon on business.

A radiogram was received Monday by Mr. and Mrs. George A. Lutz from their son George. He is stationed in Australia and informed them that he is safe and well.

Mr. and Mrs. William Dwyer and Mr. and Mrs. Edward Dwyer spent Sunday with Mr. and Mrs. Walter Lake, Delta, Ohio.

Miss Ruth Carlisle and Miss Carrie Christy will return Thursdays after spending the winter at Lake-Orion, Florida.

Mr. and Mrs. John Hunt attended the wedding of Miss Beth Hammons and Mr. John Stuppelich at the Hugland Park Baptist church Sunday evening. A reception was given at the Hugland Park YWCA.

Mrs. Harrison Johnson was a luncheon guest of Mrs. Sidney Jones, Rosedale, Thursday evening. Mrs. Elmer Darling entertained seven ladies at luncheon Friday afternoon.

Mr. and Mrs. Bert Thayer and family spent Sunday with Miss Anna Thayer.

Mr. and Mrs. Albert Grimwade have been weekend guests of Mr. and Mrs. Grandson from Redford for the past week.

Mr. Delos Hamlin was in Lansing Wednesday attending a meeting of the State Defense Council.

Mr. and Mrs. Robert Jorval of Detroit were weekend guests of their parents Mr. and Mrs. S. D.

Harger. Mr. and Mrs. D. H. Ryall and daughter Barbara and Miss Jo Field attended the wedding in Ontario, of Miss June Field and Mr. Albert E. Stipe. Miss Field is a granddaughter of Mr. and Mrs. Ryall and Mr. Stipe is with the RCAF stationed in Toronto. Miss Barbara Ryall who was a bridesmaid at the wedding returned home Monday.

The Dowie team will play its last game Wednesday and the annual banquet will be held May 1. Mr. W. Allen Nelson attended the Foremen's Conference sponsored by the University of Michigan Extension department. Mr. Nelson is vice president of the Foremen's Association of America and was the Detroit representative at the conference.

Richard Schreiber, son of Mr. and Mrs. Paul Schreiber, is confined to his home with a broken wrist.

Mr. and Mrs. Ralph Lee of Detroit were Friday evening guests of Mr. and Mrs. Paul Schreiber.

Mrs. A. J. Redmond is enjoying an extra effort to get control of the apple scab in the next few weeks. Delayed dormant applications of Sulfur or 10-12 pounds of Flotation Paste Sulphur, if you decide that you would rather take a small amount of burning of young foliage and use a more toxic material you should use Liquid Lime and Sulphur at 2 1/2 gallons per 100 gallons of water.

When using Wettable Sulphur be sure to shorten up the period between applications to about seven days and always get good coverage. Add one pint of Liquid Ordo to 100 gallons of water as an adhesive.

Be sure to control Aphids before full-bloom for after this the kill is slight. Use one pint of Black Leaf 40 per 100 gallons of water when they appear on the bud clusters in sufficient numbers.

Blossom spray on Pears for blossom blight is very good practice where Pire Blight is prevalent. Best results have been obtained by using 1 1/2 pounds of Apple Coat, 1 1/2 pounds of spray lime and 1/2 pound Ortho Spreader per 100 gallons of water.

Peach growers should check their trees very carefully for borers at the base of the trees. They are doing a large amount of damage. They should either be dug out or treated with insecticide control using every precaution set forth by the manufacturer.

World Flood  
If all the rain that fell on the earth during the course of a year could be gathered together and piled, it would cover the entire globe to an average depth of 29.13 inches.

Three special guests were a feature of the Hymn-Sing at the Neighborhood church Sunday night. Rev. Cameron is the pastor. These informal evening services are quite musical. Old and young are invited to attend and meet their neighbors and friends.

The Stange residence, corner of Mayfield and Norfolk is undergoing extensive improvements.

The Bake Sale sponsored by the P.T.A. held in the Church at Market last Saturday, was a great success. Little Jimmy Muir, two-year old son of Mr. and Mrs. Arthur Muir, Shady-side Avenue has recovered from a few days illness resulting from an adventure with kerosene oil. Fortunately the amount drunk was too small to bring about anything very serious.

Mrs. Harry Steele of Redford, but formerly of West Point Park, who was ill in Mt. Carmel Hospital, is now able to be out among her friends.

Lucian Gilbert Junior, of Detroit was the week-end guest of Gordon Fisher.

Mrs. Margaret Martin and other relatives called on her daughter, Mrs. Edward Stromoski at Eloise Hospital Clinic Friday night. Mrs. Stromoski recently underwent an operation at the clinic.

West Point Park girls who took part in the operetta given by Farmington High School, Friday night were Clara Roberts, Lora Anne

Ault, and Dolores Jean Ault. Miss Roberts had a leading part and was indeed, very good. Fred Decker of Detroit was a caller Friday evening of his aunt Mrs. William H. Zwahlen. Mrs. Emerson Ault was a visitor at Florence Crittendon Hospital in Detroit Thursday evening. Mrs. Robert Wilcox, a frequent guest of friends at West Point Park, is convalescing from a successful operation for cataract at the above mentioned hospital.

Mr. and Mrs. Thomas Clarke of Romulus were callers Monday morning of Mr. and Mrs. William H. Zwahlen.

### SPRAY NOTES

This is the second of a series of articles, prepared by Jack W. Will-ohse, regarding the spraying of orchards.

We can expect 1942 to be the large crop year for the apple growers of Oakland and Wayne counties. It is necessary that we make an extra effort to get control of the apple scab in the next few weeks.

Delayed dormant applications of Sulfur or 10-12 pounds of Flotation Paste Sulphur, if you decide that you would rather take a small amount of burning of young foliage and use a more toxic material you should use Liquid Lime and Sulphur at 2 1/2 gallons per 100 gallons of water.

When using Wettable Sulphur be sure to shorten up the period between applications to about seven days and always get good coverage. Add one pint of Liquid Ordo to 100 gallons of water as an adhesive.

Be sure to control Aphids before full-bloom for after this the kill is slight. Use one pint of Black Leaf 40 per 100 gallons of water when they appear on the bud clusters in sufficient numbers.

Blossom spray on Pears for blossom blight is very good practice where Pire Blight is prevalent. Best results have been obtained by using 1 1/2 pounds of Apple Coat, 1 1/2 pounds of spray lime and 1/2 pound Ortho Spreader per 100 gallons of water.

Peach growers should check their trees very carefully for borers at the base of the trees. They are doing a large amount of damage. They should either be dug out or treated with insecticide control using every precaution set forth by the manufacturer.

### AT THE REDFORD THEATER

"Sergeant York" the story of one of the greatest heroes of the first World War, comes to the Redford Theater, beginning Monday of this week.

The movie, starring Gary Cooper as Sergeant York, begins with York at his home in the hills of Kentucky. The movie depicts the struggle York went through, in an effort to make himself feel that it was right for him to go to war and fight with his countrymen. Following York overseas, the almost unbelievable military feats he accomplished brought his name to the attention of the entire army. The movie ends with his victorious return to his home. This is truly a movie every red-blooded American will want to see.

Due to the length of this feature, only one picture will be shown. The management will not be able to accept any passes for this billing.

### STUDENTS TO RE-ENACT SALVAGE DRIVE

High school students in this section are invited to listen to a special radio broadcast Monday, April 27, at 1:15 P.M. over station WJLB, which will re-enact the salvage drive of the students of Redford (Detroit) High School which netted 10,000 lbs. in three days.

This broadcast in the form of a recording is sponsored jointly by the Michigan Council of Defense and the State Department of Public Instruction. It is part of their State-wide program which urges the forming of a council of Defense in all public and private high schools.

Notices of the broadcast have been sent to all the high schools in this area, some of which plan special assemblies to listen and then to intensify their own salvage efforts. The program of the High School Council of Defense is a morale building program. Each Council will aim to unite its stud-

ents, their parents and teachers, and the alumni of their school in the cause of freedom and in a determination to build anew in 1942 the Spirit of '76. The sponsors of this program realize that to achieve total victory for the cause of freedom the force of our arms must be backed up by an unconquerable spirit in each one of us.

Governor Van Wagener has written a letter to the Mackenzie High School through which he calls on every High School Council of Defense, on every high school, and on education itself to learn how to build this spirit and then to demonstrate and dramatize the way of building it to its entire community.

Preventing Unpleasant Odor  
To prevent unpleasant odor when cooking strong flavored vegetables, such as broccoli, cauliflower, and beans, use large kettle with enough water to cover the vegetables completely, have it rapidly boiling and do not cover. Cook only until tender.

### If It Happens Here!

Sudden emergencies must be expected in wartime. The important thing is to be ready — to know what to do.

One of the first rules to fix in your mind: Leave telephone lines as free as possible to speed the work of rescue and defense.

In black-outs — during air-raid alarms and other local emergencies — you add to public danger if you use your telephone needlessly. You may clog the lines and

hinder the efforts of the fire-fighters, police and rescue squads.

In any time of public emergency, use your telephone only for vital messages.

WHILE AMERICA IS AT WAR  
Help vital messages go through without delay by:  
• Keeping telephone conversations short.  
• Avoiding the busy hours — 10 A. M. to noon, 2 to 4 P. M.  
• Answering your telephone promptly.  
• Giving the number when placing Long Distance calls.

Michigan Bell Telephone Company

### A NEW FOUR-DAY WEEK

for travelers who want to help America!

APRIL

|    |    |    |    |    |    |    |
|----|----|----|----|----|----|----|
| 1  | 2  | 3  | 4  | 5  | 6  | 7  |
| 8  | 9  | 10 | 11 | 12 | 13 | 14 |
| 15 | 16 | 17 | 18 | 19 | 20 | 21 |
| 22 | 23 | 24 | 25 | 26 | 27 | 28 |
| 29 | 30 | 31 |    |    |    |    |

Whenever possible pick Monday, Tuesday, Wednesday or Thursday to do your traveling — you'll enjoy more comfort and convenience on more crowded roads and you'll arrive home with more energy. You'll be able to get to the office earlier!
