

Victory

(Continued From Page Two)

a row of vegetables, especially if you plant those with ornamental tops. These are vegetables such as asparagus, carrots, beets, Swiss chard, eggplant, mustard, parsley, peppers and parsnips—all easily grown from seed. You may also grow in your flower garden fast-maturing vegetables such as radishes, which may be sown with your carrots and used up quickly. One or two rows of wax or stringless greenpod bush beans will provide enough for the needs of the average family. As the vegetables are removed—and eaten—replace them with quick-growing annuals from seeds, such as alyssum, ageratum, candytuft, calendula, marigolds, petunias, zinnias and so forth. This will achieve beauty with economy.

Fruits, flowers, lawns and shrubs play an important part in daily life. They are all part of the Victory Garden Program—and don't forget it.

Register your Victory Garden if it is the first you have ever raised; register it if you always have raised one; register your garden if you have just a flower garden. In any case you will be participating in a wartime project—and doing your bit for national defense. You can obtain registration forms from your county or local Victory Garden chairman, your county or local Council of Defense, or your Public Library.

Michigan should have 100,000 Victory Gardens this year, and every one of them should be a registered garden.

WEST POINT PARK

Mrs. William Zwahlen

Mrs. Margaret Martin was the weekend guest of her son and family, Carl Borland of Detroit.

Mrs. Louis Jennings, of Norfolk avenue, has returned from Mt. Carmel Hospital, which she entered two weeks ago. Accompanying her home was her baby daughter.

Little Homer Coolman Jr. is in a critical condition, following an operation for double mastoids last Saturday.

Mrs. Varhol of Shadydale avenue is home convalescing from an operation undergone at Harper Hos-

pital last Friday.

Mrs. Frederick Elliott of San Diego, California is the guest of her daughter and son-in-law Mr. and Mrs. Robert Henry Smith of Shiawassee avenue.

AT THE REDFORD THEATER

Spray Notes

By Jack W. Willhoice

We have reasons that lead us to believe that the 1942 coding moth population will be very near normal. The college authorities and others interested in the fruit industry of Michigan believe that every effort should be exercised to get better control this year than ever before. By doing so we will cut down the infestation for 1943 at which time the arsenals of lead supply will, no doubt, be considerably less than we have this year. The use of adhesives in the early sprays and spreaders in the later ones will produce definite results. Black Leaf "40" should be used in one application at the peak coding moth hatching period. Tree Banding is another good practice to get the moth before it hatches into the second brood. All of the sanitary measures around the orchard should be put into use. One bad slip up during the growing season makes all the materials, time and money that you have used become worthless. As transportation facilities become more strained, our job of producing enough fruit for the people in our local area becomes greater.

A brilliant how acting team looms on the cinema horizon, in the persons of Robert Taylor and Lana Turner, making their first appearance together in M-G-M's powerful drama of a gangster's career, "Johnny Eager", which opens Friday at the Redford Theater.

The story gives Taylor the greatest dramatic opportunity of his career as Johnny Eager, ruthless killer, who knows no code except the rule of self-preservation. Not until he has planned a trumped up murder on the only girl who has been able to

cold-blooded exterior and find out what makes his heart work, does he make a momentary concession to the laws of human understanding and then it is too late.

Lana Turner, as the girl, fascinated by the ruthlessness of the gangster, refusing to believe her love cannot redeem him, surpasses anything she has done before. Not only does she seem to become increasingly lovely with each picture but her work carries a dramatic conviction that makes her stand out as the most distinguished young actress the screen has produced in a number of years.

"Cradle of Commonwealth" Danville, Ky., has been called "The Cradle of the Commonwealth" since Kentucky was admitted to the Union in 1792 following a series of nine conventions held there.

Before You Move . . .

BE SURE YOU CAN GET A TELEPHONE

• Before you decide to move or build, the Telephone Company will be glad to advise you whether war restrictions will permit you to have the telephone service you will need.

Even though telephone service is furnished now in the locality to which you plan to move, it may not be possible to supply you with any service, or exactly the kind of service you want.

Drastic restrictions of telephone installations have been ordered by the War Production Board in the interest of conserving war materials.

Except as needed for war purposes, or by those responsible for public health, welfare or security—

1. Telephone service cannot be provided at some locations.
2. Party line service, only, can be furnished in many cases.
3. Extension telephones cannot be installed in residences.
4. Additional apparatus may be installed only on a limited basis.

In so far as material and war restrictions permit, we shall provide the best possible service, and we look forward to the day when we again can give the kind of service wanted, "when and where wanted." But now, and for the duration, war needs come first. That is part of the price of protecting liberty.

Michigan Bell Telephone Company

70 MILLION AMERICANS Live "IN-BETWEEN"

"In-Between" met metropolitan centers—on farms, in cross-roads communities, in small towns—more than half of America's people live and work. Greyhound offers the only transportation service to great numbers of them—offers unduplicated service to still greater numbers. Make sure, as private cars are retired, that's Greyhound to keep moving to keep America moving.
