Your small appliances do a BIG job—

give them this special WARTIME CARE

YOUR ELECTRIC SERVANTS are built for long, hard use—and they won't shirk their responsibilities if you treat them kindly! But remember, they last for the duration.

YOUR ELECTRIC IRON—Keep bottom of iron clean. Avoid ironing over zippers, snaps, hooks and eyes. Don't go away to answer the doorbell, telephone, etc. and leave the iron turned on—even for a minute. Keep the cord away from a hot iron. Be sure the iron is cold before putting it away. Be careful not to drop your iron.

YOUR TOASTER—Never dip a toaster in water. Don't jab at it with a fork to remove a piece of toast. Brush off crumbs with a cloth or soft brush. (Many toasters have a removable bottom plate for cleaning out collected crumbs.)

YOUR COFFEE MAKER—Keep inside of coffee maker clean. (Never permit left-over coffee to stand in the coffee maker.) Clean and rinse filter cloth thoroughly after using. Keep filter cloth in cold water between usings.

YOUR FOOD MIXER—Always remove beaters or attachments immediately after using. Wash with warm water, rinse and dry. Clean body of mixer with soap and water, being careful not to get water into the motor. Follow manufacturer's directions as to oiling, operation, etc.

YOUR WAFFLE IRON—Wipe off grids with a dry cloth after use. Use a stiff brush to remove any particles that stick. Never soak the grids. Wipe any spilled batter from outside of waffle iron with a damp cloth. Never put the waffle iron in water. The Detroit Edison Company.
