Simple Larceny Charge Made

Notes

By F. W. Loyrie

Unity of various organizations and the united effort of all toward the War Effort was again stressed at the State Convention. The message delivered by the new State Commander urged that every effort be made toward the completion of the job at hand—that of winning the war. Toward this end let us pledge ourselves, and regardless of how small the task may be, do it well. All the small things will add up into one big victory.

The date has not been set as yet for the installation for the 1943 officers of the Groves-Walker Post. It will again be a public installation, and it is hoped that a number of Posts in this district will join in the ceremonies. The 40 & 81st team will have charge of installing the officers.

The comrades can still take it! After a three mile march at the State Convention they did not retire, but were up and about the streets as if they had been out for a stroll. As noted by several Michigan papers, the tempo of the march was fast, too.

The Groves-Walker Post was outstanding in its contribution to the 17th district, aiding the district in bringing home three trophies. These trophies will be on display in Farmington within a few days.

Addition Ready At Walled Lake

The Walled Lake Consolidated Schools will open their 1942-43 school year on Wednesday, September 2.

The four class rooms together with a large storage room and an other auxiliary room, besides the grade gymnasium, are being completed on schedule with the finishing touches being made about the first day of September. This is a \$53,000 Federal Works Building project necessitated by the large influx of defense workers into this area in the past two years.

The school has had a good record for building and trying to meet the problem of increased enrollment. The District does not have too many class rooms, but the housing situation should be much more reasonable this year due to the fact that the curtailing of building, and conservation of trees has made a let-up in the new residents in the Lake area.

Basement rooms and small unsuitable rooms were used last year for class rooms and classes were in many cases twice as large as they should have been. Most of these conditions will be greatly remedied in the Walled Lake District this coming school year. The building at Walled Lake will now accommodate about 1,300 pupils with two buildings at Commerce and Union Lake taking care of about 250.

Last year the total enrollment of the District was about 1,690 pupils, and it is expected that this will be about the same during 1942-43 in regard to pupils enrolling.

Children of the first four grades will be taken care of at Union Lake and Commerce this school year. This will make a reasonable teacher load in these schools and allow for the increased number of pupils in the northern part of the district. There will be a teacher for each grade at Union Lake and the two teachers at Commerce will have two grades each instead of the three grades each had last year, and four as required before the annexation.

A decided improvement in the building at Walled Lake will be the separation of the children of the first six grades, and the pupils of the Junior and Senior High School. There has always been much confusion due to recess periods of the grade children and passing of the danger classes, each causing much noise and interruption in each others work.

The south part of the school grounds have been graded and the grade children will have one exit to this well surfaced play area free of the danger of vehicles coming and going since the south entrance to the school grounds has been closed. There will be more fencing done for the sake of safety of children and avoidance of harmful driving on the school grounds by picnickers and unthinking guests.

TOWNSHIP WOMEN WILL ORGANIZE EMERGENCY UNIT

After many weeks of preparation and work, the Farmington Township women are about to organize an emergency unit.

Information concerning the Nurses' Aides may be obtained from Dr. Aschenbrenner.

Enrollment in Motor Corps classes will begin the second week in September, at the William Shaw garage on Grand River Avenue, just west of Eight Mile Road.

"KING'S ROW" WILL BE SHOWN AT CIVIC THEATRE

"King's Row," the eagerly awaited film version of the Henry Bellman novel, has been scheduled by the Civic Theatre, to open there on Sunday, Aug. 30.

Ann Sheehan, Robert Cummings, Ronald Reagan and Betty Field are starred, and there is a fine featured cast to support them.

"King's Row" dared to be different. It represents a frank unmasking of a small city of the American wilderness with the resultant high drama and the comedy, pathos and excitement that always are to be found there.

This is the story of young people, struggling to find their happiness against the opposition of circumstance and misunderstanding. It is particularly the story of two romances, one between Ann Sheehan, playing Randy Monaghan, and Ronald Reagan, as Drake McHugh, and the other a three-way affair, first between Robert Cummings as Cassandra Tower and later, after Castle dies, between Cummings and Kaaren Verne as Elsie Sandor.

Woven into the intricate tale of these lives and loves is the whole parcel and pattern of small city doings, the back-fence gossip, the whispered accusations, the high spots of love and sacrifice that go to make up life in any typically American community.

The action of the story is fast and dramatic, involving as it does almost all the varied elements and circumstances that keep life in a small city interesting and provoking. The story makes ample use of all the tragedy and drabness that is found in such a place but it also focuses attention on the high notes of happiness for the human beings who struggle there to make their lives better and their loves more enduring.

Men Best Drivers
Tests by the Iowa State college show that men really are better car drivers than women. Women are inclined to kill the engine, cut more corners, clash the gears and make unnecessary flourish in getting their cars started. The conclusions were reached after testing 1,000 drivers of nearly equal experience.
