**What You Buy With WAR BONDS**

Winter flying jackets for both the Army and Navy Air Corps are regular equipment for our aviators. They cost from \$12 to \$18 and are made of hersehide leather lined with sheep shearing.

Purchase of one \$18.75 War Bond, for which you receive \$25 in 10 years, will pay for one of these jackets so necessary for our men flying at high altitudes and in northern climates. So you and your neighbors can do your bit by investing at least 10 percent of your salary every pay day in War Bonds to help pay the cost of this equipment for intrepid American flyers. Join the parade, and help top the War Bond Quota in your county. U. S. Treasury Department

**More Workers Needed**  
 Our war industries must be expanded again and again to produce the tools needed for victory. In the next two years shipbuilding and ordnance working forces must be tripled, aircraft employment must increase nearly fourfold and work in new yards, army arsenals and depots may jump five times. That means a lot of jobs for workers with patriotism, skill and brains.
