

THIS AND THAT

FLASH—It is going to stop raining—sometimes.

With the ground as gooey as it is, I wonder how we procrastinators are ever going to get our bulbs in.

Wonder why it is that some mornings there is so much confusion to get the children off to school and then again things go just like clock-work.

By the way—have you ever reviewed your First Aid Text Book, as you promised yourself you'd do every couple months?

Wonder how many could do the ankle-bitch without looking in the book?

Why do we neglect to see or call friends that we think a lot of until it has gone so long that we are ashamed?

Why is it so hard to settle down to work after having a glorious week-end?

With the mumps mumping around school like they are, it's hard for we gaddin' gals to make plans—never know when our children will be sent home with them.

What You Buy With WAR BONDS

It is imperative that the ship lanes be kept free of ice. With American troops occupying Iceland and the Navy using the northern route for transportation of supplies to Russia, ice breakers are essential to Naval operations. The ice breaker is a specially constructed ship with heavily armored bows and powerful engines that crush the ice floes rather than ram through them.

Ice breakers of the Kitchikan class operating in the North Atlantic cost approximately \$10,000,000. You can help our Navy build these ships by investing at least ten percent of your income in War Bonds every pay day. Enroll in the payroll savings plan or apply at the nearest bank or postoffice. U. S. Treasury Department

THIS WEEK AT YOUR LIBRARY

HOURS: Wednesday—11:30 a. m. to 1:30 p. m.—3:00 p. m. to 5:00 p. m. Saturday—2:00 p. m. to 9:00 p. m.

The Chicken Wagon Family — Barry Benefield. The Pippiny family, Mr. and Mrs. Pippiny and their daughter, Addie, bid notice of their living by trading and bartering up and down the sandy roads of Texas, Arkansas and Louisiana. They traded with farmers' wives and bartered what they got with the merchants in the various towns they passed through. Mrs. Pippiny had just decided that they had to settle down in some town so that Addie might attend school.

It was on his last night of camping along the route before heading for New York, the place that had chosen, that Jim Pickett came across the Pippiny family. That was how it happened that some months later the Chicken Wagon family and Jim Pickett were driving down Broadway in the rain. And that is how they happened to meet Officer Hibbard and find the old deserted firehouse on East 22nd Street, the beginning of one of the most delightful and interesting romances you have ever read.

We Are Not Alone—James Hilton. James Hilton has created another living, breathing character in the person of a little English doctor who served his patients with compassion and skill, who was efficiency itself in his operating room, but who, in his private life, was as dreamy and ineffective a person as could be imagined. Here the novel is the story of his meeting her happy nor melancholy line in a little cathedral town, and of how the pattern of that life was shattered by his summons to attend a German dancer in a downtown New York stock company, before the story of the linked fates of these two is one of love, jealousy and enduring faith.

Wing Wind — Temple Bailey. Here in this beautifully written novel answered for one girl the question that has asked down through the ages, "Should a girl sacrifice her chance for romance and happiness for the sake of an unwoman's children?"

It seemed to be taken for granted that Jacqueline would always take care of Yolanda and Joe, her sister's children. But the years ahead belonged to her and Al, who loved her devotedly. Their love cried out for fulfillment, yet the years went by and no way was opened toward a realization of their happiness. Jacqueline's sacrifice is the keynote of this heart-stirring love story.

Here is a heroine whom all men and all women will love — one whose loyalty and unselfishness would make a fine reward to herself and her lover. We Escaped — William Allan. This book contains twelve personal narratives of refugees and their flight and escape to America. The narrators are—Austrian, Dutch, Norwegian, Spanish, German, Czechoslovakian and Polish. They include a cross-section of all country—lawyers, farmers, business men, artists, accountants, a bollmaker and a schoolboy. They are of all religions.

The stories are simply told and bring true accounts are full of contrasts: tragedy and comedy, courage and stupidity, patience and panic, brutality and kindness. A book of stories so interesting, so true to life and yet so full of dangers, thrills and excitement that it reads like a novel.

WATCH THE WAVES GO BY

NORTHAMPTON, MASS.—Soundphoto—Mrs. Calvin Coolidge, wife of the late President, and Captain Herbert W. Underwood (left) and Rear Admiral Randall Jacobs are shown last week-end as they watch the Waves go by. There are 115 Wave officers who were just graduated.

A WORD TO THE WIVES

Hello there—we finished up with cakes last week, so we'll start right in on pies. It took me seven years to learn how to bake a pie. I tried just about every recipe that had ever been printed. They say you have to get the "feel" of good pie dough and it certainly is true. But once you do get the "feel," it's as easy as can be. Here's the proportions I use, one cup flour to one-third cup shortening and good half teaspoon salt. And just enough water to hold the dough together. That's the one mistake that causes so many crusts to be like shoe leather—too much water. Always add the water as though it cost a dollar a drop. Don't forget the salt—that's the reason so many folks pie taste so flat—that goes for cakes too. I never make less than two cups of flour, that will give you one double crust pie and a sheet.

Now without a crust good pie crust can be made from a vegetable shortening, but to make a really good, super-duper pie crust nice old-fashioned brown lard must be used. It adds that certain flavor that can't be beat. No matter what kind of pie you are baking start it out in a hot oven at least 425 degrees for 15 minutes, to set the crust and prevent soaking. Then turn the oven down to 350 for fruit pies and 300 for custard pies. A continued high temperature tends to toughen pie crust too.

We also know that over mixing of muffins does bad things to them and the same holds true with pies and cakes. There is a vegetable food for you—can be served and enjoyed at any meal—there are so many variations. A good basic recipe is: two cups flour, one teaspoon each of baking powder, soda and salt, add enough sour or buttermilk to make a medium batter. And don't over-beat, mix thoroughly. One or as many eggs as you can afford at their present price, may be added to increase the food value of the pancakes, but personally I think they are just as good without any. When making waffles, I use the same recipe and add one egg and one-third cup melted butter. You can also use the same recipe for fritters, adding one egg and the corn or apples as desired, only make the batter a little thicker.

Have you had a hard time convincing your family that vegetables are good? I have found that cheese sauce served over cauliflower, cabbage or Brussels sprouts is one sure way of having the dish scraped clean. Most people and especially children love

THE GARDEN PATH

A very few lilies scattered throughout your garden, can change it from common place to a thing of beauty. With the aid of a very few imported England, all lily bulbs for sale this fall were grown in America. While the supply is limited, there are enough to provide everyone with a few bulbs. Mass plantings of lilies are not as effective as when used singly or in small groups. Hardy lilies are best planted in the fall. Bulbs are dormant now and must spend the winter either in the ground or in cold storage. They are much better off in the ground. The notion that lilies are hard to grow has small basis in fact. Quite the reverse is true in most varieties.

If your soil is a good sandy loam it should be suitable for most hardy lilies. They do best in a light loam or soil rich in leaf mold. There should always be good drainage as they will quickly show the effect of standing water. Do not treat the soil with acid or lime, as a neutral soil is best. Manure should be used only as a top dressing and then should be at least a year or more old. A balanced plant food is fine, and some varieties will need additional applications in the spring. Use one pint to a bushel of soil. Spade your bed deeply before setting out the bulbs. If you think the ground will be frozen before the bulbs arrive, cover with a mulch to keep the earth from freezing.

A location where the base of the plant is shaded is a good one for most lilies. While they dislike standing water, they also dislike drying out in the summer time. Therefore it is advisable to cover with a summer mulch of peat moss or rotted leaves to keep the moisture in during the dry summer months.

Planting depth is important. Lilium candidum, casade, martagon and superbum should be planted to a depth of 3 to 4 inches. All others should be 4 times the diameter of the bulb, usually about 8 to 10 inches.

Many lilies bloom in midsummer when there is a natural lull in garden color and the lilies are more than welcome. Some bloom clear into September. Regal lily, a queen of lilies, should be in every garden where its gorgeous pink striped flowers with golden throats are unsurpassed for beauty.

Assistant Adjutant The marine corps established the office of assistant adjutant and inspector in the Philippines in 1904, the first time such an office was created out of headquarters, Washington, D. C.

VANILLA WAFERS ARE A TREAT AT SMALL COST

This is an awfully good recipe and not too expensive. I used half butter and half vegetable shortening. Makes about 50 small cookies.

- VANILLA WAFERS
2/3 cup shortening
1/2 cup sugar
1 egg
2 tbs. milk
1/4 cup sifted flour
1/4 tsp. salt
2 tsp. vanilla

Cream the butter and sugar, add the well beaten egg, the milk, and the sifted dry ingredients, then the vanilla. Drop by half teaspoons on a lightly greased baking sheet, allowing room to spread. I took the flour cup and mashed down into shape slightly. Bake in a moderate oven (about 350 degrees) or until the edges are golden brown.

W.S.C.S. MEETING SCHEDULED FOR NEXT THURSDAY

There will be a regular meeting of the Women's Society of Christian Service on Thursday, November 19. Luncheon will be served at 1 p. m. The Reverend Howard Busching will be the speaker, with the title of his talk being "Stemming the Flood of Alcohol." The business meeting will start at 2 p. m. Guests for this meeting will be members of the Women's Christian Temperance Union.

Ladies of the W.S.C.S. will serve a Rebecca dinner to be held at the church on Monday, November 16, in the evening.

WIN-MY-FRIEND CAMPAIGN GETS UNDER WAY

The Win-My-Friend campaign is on in full swing and the community is most cordially invited to participate. The Reverend E. O. Odegarde is the speaker for each evening. Kerl Wohler, a student of the Northwest Baptist Seminary in Chicago, is leading the singing for the entire week. There will be special music every night from the Detroit area and Farmington.

Plan to attend the Communion Service on Sunday, November 15, at the morning worship.

Monday evening November 16, will conclude the Win-My-Friend Campaign and the pastor will be ordained. Refreshments will be served following the meeting. The public is invited to attend.

At three weeks The ability of an infant's eyes to follow a moving object begins about the third week in life.

P.T.A. NEWS

There will be a regular meeting of the Farmington Parent-Teacher Association on Tuesday, November 17, at 8 p. m. in the School Auditorium. This being National Education Week, the program will consist of brief talks by teachers on the 4 phases of Education. The pupils of the 7th and 8th grades are having a display of their hobbies, and promises to be very interesting. All are welcome to join with us in our meetings.

The Room Representatives of the 7th and 8th grades, Mrs. Juliette Angel, Mrs. Earl Vivier with their assistants, Mrs. Ed Ernst and Mrs. Bowman, entertained with a delightful tea for the mothers of those grades on Wednesday, November 4, in the School Cafeteria. Miss Veva Craig gave a most interesting talk on the subjects for parents and their children to discuss. It was appreciated by all the mothers.

This concludes the grade school teas and plans are being made to have discussion groups for parents of the high school.

The first meeting, held November 4th, was led by Mrs. H. Colebank, chairman of the committee on high school parents. They plan to meet again Tuesday, November 17, in the Auditorium at 7:30 p. m. a half hour before the P.T.A. meeting.

You are most cordially invited to join in these discussions concerning problems of high school youths.
