THE BLUE AND WHITE

SEASON SUMMARY FOR BASKETBALL

This year gave Farmington a fair basketball season. F.H.S. had seven victories as against five defeats. Games were as follows:

F.H.S		Opp.
17	Redford Union	19
36	Milford	16
31	Northville	29
23	Walled Lake	32
36	Holly	23
26	Northville	34
30	Redford Union	23
37	Clarkston	29
32	Milford	34
33	Keego Harbor	15
24	Walled Lake	21
37	Redford Union	37

Farmington netted 342 points to their opponents' 312. One hundred twenty-seven baskets accounted for 254 points, while 88 foul shots accounted for the other 88 points. Farmington had a chance at 201 foul shots, but made only 88 for a percentage of 43.7.

F.H.S. committed 152 fouls as against 145 for her opponents. Al Wallbank played in ten games and had just one personal against him. This is the lowest number of any member of the team. Dick Pauline played in 47 of the 48 quarters played this year.

Individual scoring ran as follows:

	Bask.	FT	Pts.
Pauline	32	24	88
Mitchell	28	22	78
Hamlin	16	8	40
Wallbank	14	0	28
Stewart	10	6	26
Fournier	5	15	25

Players who started off on the second team but were called up recently were Tyler, Bacon and Dunckel. All three are promising players and will give a good account of themselves in the next two years.

The second team had a much better season than the first team. They won 9 games to 3 losses. They scored 305 points to their opponents' 208. Only four teams were able to cross the twenty mark on them. They were Holly with 26, Redford Union with 23, Keego Harbor with 24, and Redford Union again with 25.

The second team, coached by Mr. Chapman, produced several good players. Among these were Bacon, Tyler, Dunckel, Asclen, Brenner, and Fournier.

While with the second team Bacon produced 70 points, Dunckel 64 and Tyler 48. As first team members Bacon scored 10 more to make his total 80; Dunckel scored 11 to have 75; and Tyler had 6 to reach 54 points.

Other men who were used on the second team and showed up well are Fisher, Streling, Locker and Conroy. These players will be big factors in basketball in future seasons. —D.S.

REDFORD UNION WINS RUBBER GAME

Saving their strength for Friday night's tussle with Berkley, Farmington lost a one-sided match to Redford Union 7-17. This was not a game to count in the standings. It was played to break the tie between the two teams. Redford Union won the first game 19-17 and Farmington the second 30-23.

Redford Union took a quarter time lead of 9-5. In the second quarter bad breaks hit Farmington and shots rolled in and out the basket. Redford Union had better luck, however, and jumped her lead to 20-10.

Farmington was held to one point in the third quarter, while R.U. netted 7. Saving his stalwarts for the tournament, Coach Hutton substituted frequently in the last quarter. Redford Union rang up ten more points to Farmington's six to win 37-17.

This game ends the season, except for the tournament, for both teams.

The lineup was as follows:

F.H.S.		R.U.
Pauline	F	West
Wallbank	F	Rokozewski
Stewart	C	Hartgrove
Fournier	G	Mac Gowan
Maloney	G	Pearce
Dunckel*		Edwards*
Tyler*		Scudder*
Doll*		Simmons*
Bacon*		Peoples*
Kosmensky*		Rosper*

*Substitutes.

LETTERS AWARDED

A pep meeting was held Friday in the gym during which Mr. Chapman presented letters to Bernice Lundberg, Harriet Nebus, Shirley Moore, Marion Vandenburg, and Kathleen Morris, cheer leaders.

Miss Bacon led a cheer for them after they received their well-earned Fs.

Megaphones were on sale for Friday's game.

—Shirley Barber.

The Eye Is Quicker Than The Hand

The entire school gathered in the gym Wednesday morning for a good hour's entertainment which was provided by Mr. Campbell, magician from the University of Michigan.

Mr. Campbell proved to the students that the eye is quicker than the hand when he demonstrated the rabbit, egg, firecracker and stamp tricks.

—Shirley Barber.

'TIS SAID . . .

Ilene Morris, Farmington's delegate in the D.A.R. Contest, received her invitation last week to attend the State Conference being held at Statler Hotel in Detroit on March 26. This conference will begin at ten o'clock and a luncheon will follow.

Isn't Farmington lucky? Why it isn't every school that has such a swell second team. Well, congratulations, boys, you're cookin' with petrol.

The gym floor is really going to be jammed March 27, because the Seniors are giving a Girl-Bid dance. In these trying times it does a girl's heart good to have a chance to big once in awhile.

Dave, we have heard the funniest rumor going around about you scaring a freshman out of her shoes at the movies. Shame on you.

If other people only knew about themselves! What we found out about ourselves! Wow! Those Personal Audit tests Miss Dammon is giving really dig deep, but they are lots of fun and enlightning, too.

'Tis said a certain Senior girl has wondered and wondered about Ima Surchin—even came down to Journalism class to see what she looked like. Why, Edith, I'm surprised—weren't you?

—Ima Surchin

THE MAN OF THE WEEK

Did you see the young man in the drugstore Monday noon? An attractive woman, who might have been his aunt, was holding him and trying to eat at the same time. We would like to have held the baby while the woman finished her lunch, but he probably would not have come to us. She solved the problem herself by ordering him a dish of ice cream. We saw the young mother come up behind the pair and say, "No wonder my baby is spoiled," but she didn't seem to mind—he was happy.

—Catherine Logue.

Three Girls And Boy Win Spelling Contests

The fifth through eighth grades held their annual Spelling bee, sponsored by the Detroit News, on Friday, March 5. The winners are the following: fifth grade—Robert Starr, whose winning word was despise; sixth grade, Marian Morton, whose winning word was cushion; seventh grade, Marjorie Hunt, whose winning word was telephone; and eighth grade, Vera Dietrich, whose winning word was tyranny. These winners will be presented with a Webster dictionary with their names engraved in gold on the covers.

The contest to determine the school champion will be held on March 26. —J. Leach

AROUND THE GRADES

On Friday when the upper grades were having their Spelling bees the third graders also had one in their own room. Miss Geraldine Haskins won the bee with Robert Hutton runner-up; both were presented with nice boxes of crayons.

Andra Cooper has enrolled in the fourth grade. The fourth grade sincerely hopes she enjoys being in their room. They have finished their material charts for social science. Many of them were very good. In geography they are visiting Holland. —N.L.M.

Seniors Plan Spring Activities

The Seniors held a class meeting last Tuesday in the study hall. The meeting was called to order by President Ilene Morris.

The discussion that followed was general, although the Seniors did decide quite certainly that on Skip day they would go to Belle Isle and that they would hold a record dance soon.

—M.S.

REGISTRATION NOTICE
For Primary Election
Monday, April 5, 1943

To the qualified electors of the Township of Farmington, County of Oakland, State of Michigan.

Notice is hereby given that in conformity with Michigan election laws, I, Harry McCracken, the township clerk of Farmington Township, will upon any day except Sunday and a legal holiday, the day of any regular or special election or primary election, receive for registration the name of any legal voter in said township not already registered who may apply to me personally for such registration. Provided, however, that I can receive no names after Tuesday, March 16, for such election.

Notice is hereby given that I will be at my home office, 35720 Twelve Mile Road any day except Sunday up to Tuesday, March 16, to receive registrations.

I will be at the Township office Tuesday, March 16, from 8:00 o'clock a.m. to 8:00 o'clock p.m. to receive registrations, which is the last day to register.

Harry McCracken,
Township Clerk.

WEST POINT PARK

Mrs. William Zwahlen

Young Virgil Houtz was on the sick list last week.

Little Donald Kearnen, who has been ill the last ten days, is able to be out again.

Mrs. Jack Tallman is somewhat improved, after being seriously ill for more than a week.

Miss Marietta Schuit and Miss Joyce Varhol spent Saturday in Detroit.

Mrs. Edwin Johnson and her house guest, Mrs. John Timmer, of Muskegon, spent Thursday in Detroit.

Cecil Willets was on the sick list the first of the week.

Edwin Johnson was ill several days the past week.

A meeting of the Sunshine Sisters was held at the home of Mrs. Cecil Willets Wednesday afternoon, and proved a most enjoyable session. The next meeting will be held at the home of Mrs. Emily Broquet on Norfolk Avenue, on Wednesday, March 17th, at two o'clock.

Mrs. Jessie Eddington visited friends Wednesday in Detroit.

Mr. Varhol of Shadyside Avenue, has received word that his younger brother is "missing in action."

Born to Mr. and Mrs. William Soos, Shadyside Avenue, on Monday, March 1, a son. Both mother and son are doing nicely.

Carol Ann, daughter of Mr. and Mrs. Gow, on Mayfield Avenue, celebrated her birthday Sunday afternoon by entertaining a number of her young friends in her home. There were the usual features of such an occasion.

Increased interest was shown in a Red Cross sewing meeting, held at the home of Mrs. Homer Coolman Friday afternoon. Women who can sew will meet regularly at this home and at present are constructing little coats for ten year olds.

The Adults are rivals at Pierson School. In the eighth grade, Shirley Ault, daughter of Mr. and Mrs. Russell Ault, is the champion speller of her grade. In the seventh grade Phyllis Ault, daughter of Mr. and Mrs. Austin Ault is the winner. And in the sixth grade Helen Ruth Ault, another daughter of the Austin Aults, is at the head of her grade.

Miss Shirley J. Zwahlen returned home Sunday from a ten day business trip to New York.

Ernest Carter and Norman Bolyard of Hubbard Avenue, were both inducted into the service last week.

Mr. and Mrs. Gerald Teshka of Detroit, were guests Saturday evening of Mr. and Mrs. Marvin Addis.

Mr. and Mrs. William D. Zwahlen, two daughters, Janet Mae and Gail Anne of Detroit, were guests Friday night and Saturday of Mr. and Mrs. William H. Zwahlen.

REGISTRATION NOTICE
FOR ELECTION TO BE HELD
MONDAY, APRIL 5, 1943

To the Qualified Electors of the City of Farmington, County of Oakland, State of Michigan.

Notice is hereby given that in conformity with the "Michigan Election Law," I, the undersigned City Clerk, will, upon any day, except Sunday and a legal holiday, the day of any regular or special election or primary election, receive for registration the name of any legal voter in said City not already registered who may apply to me personally for such registration. Provided, however, that I can receive no names for registration during the time intervening between the twentieth day before any regular, special, or official primary election and the day of such election.

Notice is further given to the qualified electors of this City that the undersigned Clerk of said City will register qualified electors who may apply at my office in the City Hall, located at 33312 Grand River Avenue, Farmington, Michigan, Tuesday, March 16, 1943, the twentieth day preceding said election, as provided by Part 178, Laws Relating to Election, Revision of 1941, last day for general registration by personal application for said election from 8 o'clock a.m. until 8 o'clock p.m. on said day for the purpose of receiving the registration and registering such of the qualified electors in said City as shall properly apply therefor.

The name of no person but an actual resident at the time of said registration, and entitled under the Constitution, if remaining such resident, to vote at the next election, shall be entered in the registration book.

March 11, 1943.

Harry W. Moore,
City Clerk.
March 11

U. S. Saved From Bird, Animal Pests by Law

A federal law enacted in 1900 has saved the United States from the possible establishment of many foreign animal and bird pests. This law gives the department of agriculture full authority to forbid the importation of any bird or animal it considers destructive, and permits are necessary to bring in other species that have been proved harmless, such as canaries, parrots and the like.

On the prohibited list are flying foxes, or fruit bats, mongooses, meercats, mynahs, bullfinches, European yellowhammers, English sparrows and starlings.

Attempts are made each year to bring some of these creatures in but they are immediately destroyed by customs officials. One smuggler attempted to bring in four of the prohibited birds by tying them to his ankles underneath his socks. Officials found the birds had died from suffocation.

Flying foxes come from India and as their common name indicates they are highly destructive to fruit. The mynah is an Asiatic bird, somewhat similar to the starling, and is likewise injurious to fruit. The mongoose is a bloodthirsty, weasel-like animal smaller than a cat and lives on bird eggs and birds. It would become one of our worst poultry killers if ever established here. The meercat is almost a counterpart of our prairie dog and is highly destructive of field crops. They live in colonies and come from Cape Colony.

It Was Then Called a Most Ingenious Game

The hope entertained in some quarters that billiards will presently become a ranking college sport is a pleasant one to contemplate. Except perhaps for the demands which the mastery of the game makes upon time it is one that seems to be pre-eminently fitted to find a prominent place in extra-curricular activities. In addition to having retained the character which led one Seventeenth century writer to describe it as a "most gentle, cleanly and ingenious game," it is one that ideally, at least, develops just that combination of beautiful physical discipline and mental alertness which have always been the goals of American education.

To be sure, it does not constitute exercise in the same way as a basketball game or a hockey match does. Billiards requires a finer and more delicate kind of muscular precision, a more subtle obedience of hand and eye to the mind, rather like that which fencing encourages. Intellectually it may not quite have parity with chess, but there are aspects of it which strongly suggest the strategic intricacies of the combinational and positional problems of that game. Indeed, it might crudely be compared to chess played with foils.

Men Gardeners Fascinated

In view of the almost fatal fascination pruning shears and saws have for most men gardeners, it is a matter of wonder why more of these inveterate pruners do not train fruit trees against walls. It is a work of devotion and skill and not only would save many garden specimens from enthusiastic operations but would provide a hobby of perennial interest.

The art of espalier (the last syllable, ier, is pronounced yay or yair) is ancient and honorable. It began in France where every inch of space is valued and planted by the land owner. Because fruit borne on the clipped spread branches is so delicious and because the effect of the vertical and horizontal straight lines proves so pleasing, as well as for economy of space, espalier has survived when other artificial gardening arts have perished.

A Bullet's 'Ee-eeah'

In the heat of battle men who have been timid and retiring; men who have been mild and gentle, may be transformed in the twinkling of an eye. Comes the "ee-ee-ah" of a bullet; a comrade falls, and the erstwhile coward becomes a raging lion. During the fighting before Vicksburg in the Civil war, according to the Illinois WPA Writers' project, the chaplain of an Illinois regiment said of one pitched battle: "Many incidents of personal bravery occurred, but to tell them were almost invidious where all were so brave. The whole regiment seemed to regret the close of the battle. Having gotten into it—it did not last long enough. We seemed to be transformed into furies with a passion for war. Certainly we are veterans now."

Fun With the Stars

Astronomers as a whole are not given to tree climbing, but give them some galaxies to play with and they often get out on a limb. Present observation data are just sufficient to make this sport fun and the right answers are a good safe decade away. The investigations fall into three subdivisions: observation, determination of absolute characteristics from the observations and theoretical work, which here amounts to scientific guessing, writes Katherine Gordon in Sky and Telescope. The first subdivision includes work on the apparent number, magnitudes, sizes, shapes, colors, position and radial velocities of galaxies.

MORTGAGE SALE

DEFAULT having been made for more than thirty days in the conditions of a certain mortgage made by George S. Barry and Mary M. Barry, his wife of Royal Oak, Michigan to Standard Savings & Loan Association, a Michigan corporation of Detroit, Michigan, dated the 17th day of September, A.D. 1940, and recorded in the office of the Register of Deeds for the County of Oakland and State of Michigan, on the 18th day of September A.D. 1940, in Liber 910 of Mortgages, on page 476-78 on which mortgage there is claimed to be due and unpaid at the date of this notice, for principal and interest, the sum of Two Thousand Seven Hundred Fifty-six and 82/100 Dollars, ($2,756.82), and no suit or proceeding at law or in equity having been had or instituted to recover the debt secured by said mortgage, or any part thereof;

Now, therefore, by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, NOTICE IS HEREBY GIVEN, that on Thursday the 13th day of May, A.D. 1943, at twelve o'clock noon, Eastern Standard Time, said mortgage will be foreclosed by a sale at public vendue to the highest bidder at the Easterly entrance to the Court House in the City of Pontiac, Oakland County, Michigan, (that being the place where the Circuit Court for the County of Oakland is held), of the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage as aforesaid, with interest thereon and all legal costs, charges, and expenses, including the attorney fees allowed by law, and any sum or sums which may be paid by the undersigned Standard Savings & Loan Association mortgagee at or before said sale, necessary to protect its interest in the premises including taxes and/or assessments. Which premises are described as follows:

Land situated in the City of Royal Oak, County of Oakland and State of Michigan, described as follows, to-wit:

Lot seven hundred thirty-six (736) of Vinsetta Park Subdivision No. One (1) of the East one-half (½) of the Northwest Quarter of Section Sixteen (16), Town One (1), Range Eleven (11) East, City of Royal Oak, Oakland County, Michigan, according to the plat thereof recorded on July 29, 1916, in Liber 14 of Plats, on Page 34, Oakland County Records.

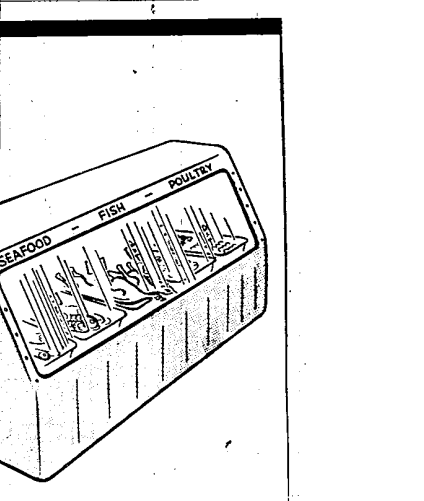
Typical New Jersey Farms

A survey of 50 typical New Jersey farms gave an average of more than one ton of scrap per farm. If this average were maintained throughout the country, the nation's farms are capable of yielding at least six million tons of scrap.



BUILD YOUR MENUS
around things
available!

A SHARP KNIFE cuts through a hind quarter of beef. On one side are the "fancy" rib roasts and tenderloin steaks, on the other the short ribs and flank steaks.

There is no difference in nutrient values on either side of the cut. On both sides of the knife, the meat is rich in proteins, minerals, vitamins—iron, phosphorus, thiamine, niacin. You don't have to buy expensive cuts of meat to secure these needed food values. These cheaper cuts actually *pay you dividends:* They are just as healthful, but they cost much less and you save money on your meat bill.

And remember: If you have an electric range or electric cooker in your kitchen, electric cooking makes even *cheaper cuts* of meat tender. Some of these cheaper cuts may not always be available. But, when you can buy them, they make appetizing and patriotic dishes: BEEF: Round Bone Chuck Roast—for pot roast with vegetables. Flank—bake and stuff, or use for Swiss Steak. Ox Joints—braise with vegetables. VEAL: Breast—bone and roll, or pocket and stuff for baking, or use for stew. LAMB: Shoulder—roast or pot roast. Breast—stuffed and baked, or use in stew. PORK: Spareribs, with sauerkraut. Pork Feet—cooked in water, baked or served with vegetables. Hocks—cooked in water with cabbage.

Poultry, fish and seafood (scallops, clams, oysters, shrimp, crab) are excellent for adding variety to your menus. Consult your cook book for dozens of ways of using them. The Detroit Edison Company.
