IS YOUR METER READER IN THE 4000? ★ Almost 400 Consumers Power employees are on leave from their jobs and serving with the armed forces. Some are meter readers—and that's one reason why meters are being read only every other month, instead of monthly. Another is that automobiles, tires and gasoline must be conserved so you may continue to enjoy dependable utility service at your home and the place where you work. Perhaps the meter reader came to your house on foot, but still there were 100,000 miles of automobile travel involved in a single reading of all this Company's gas and electric meters on the farms and in the cities and villages of 58 Michigan counties. We appreciate the spirit of cooperation our customers are showing in this wartime situation. CONSUMERS POWER COMPANY 1039
