At a session of said Court held at the

City of Pontiac, in said County, on the 23rd day of July, A.D. 1943.

Present: Honorable H. Russell Holland,

Circuit Judge.

It is further appearing that after diligent

search and inquiry it cannot be ascer-

tained, and it is not known whether or

not said defendant was living at the time

where any of them may reside, if living,

and if dead, whether they have personal

representatives or heirs living or where

they or some of them may reside, and fur-

ther that the names of the persons who are

included therein without being named, but

who are embraced, through the title of

unknown heirs, devisees, legatees, and

assigns, cause their disappearance to be

known, and entered in this cause, within three

months from the date of this Order, and

in default thereof, that said Bill of

Complaint be taken as confessed by the

defendant, and that judgment be entered

therein once in each week for six weeks

in succession.

H. Russell Holland,

Circuit Judge.

A True Copy

Lynn D. Allen, County Clerk.

By Esther C. Meade, Deputy.

LEON H. HUBBARD, Attorney,

839½ Maple Street, Pontiac, Michigan

STATE OF MICHIGAN

IN THE CIRCUIT COURT FOR

THE COUNTY OF OAKLAND

IN CHANCERY

JAMES SHAPPELL, Plaintiff.

vs.

JAMES SHAPPELL, Defendant.

ORDERS OF PUBLICATION

At a session of said Court held in the

Court House in the City of Pontiac,

Michigan, this 21st day of July, A.D. 1943.

Present: Honorable H. Russell Holland,

Circuit Judge.

It is satisfactorily appearing on file

that said Defendant, James Shappell,

is not a resident of the State of Michigan;

and that his last known address was

Leavenworth, Kansas.

It is ORDERED that the said, James

Shappell, appear and answer the Bill of

Complaint in this cause within three

months from the date of this Order, or

that the said Bill of Complaint be taken

as confessed against him, and that this

Order be published according to law; or

that a copy of this Order be served

upon the Defendant, James Shappell,

by registered mail.

H. Russell Holland,

Circuit Judge.

A True Copy

By Esther C. Meade, Deputy.

Inflammation of Udder

Also known as "garget" or "caked udder," mastitis is an inflammation of the udder which may reduce milk flow and ultimately destroy the functional tissue of the udder. It is caused by bacteria which enter the udder through the teat canal and may be either acute (2 per cent of the cases) or chronic (98 per cent). Few herds escape the chronic form which is mild but persistent, causing a gradual hardening of the udder and loss of one or more quarters. Small clots appear in the milk, and, in advanced cases, may cause it to become bloody or stringy.

Potato Source of Energy

An excellent source of energy, the potato is also one of the cheapest sources of iron and an economical source of calcium, phosphorus, the B vitamins and C, according to Dr. Leichsenring.

Load Freight Cars

In 1942 railroads of the United States attained a new high record in the average number of tons per carload freight. The Association of American Railroads announced. The average for that year was 40.1 tons per car. This is the fourth consecutive year in which a new high record has been established. In the average was 38.2 tons and in 1940 it was 37.7 tons.

Headed for Paris

According to the late Lt. Gen. John A. Lejeune some units of U. S. marines were still fighting an hour after hostilities ceased on November 11, 1918. "Because they were so far in advance that we couldn't get word to them that the fighting had stopped. In fact, one of our platoon leaders from the Germans that the war was over."

Wartime hints worth knowing:

How to save ELECTRICITY

without sacrificing needed LIGHT

With fall evenings just around the corner, the matter of home lighting becomes doubly important. In many homes there will be increased demands for longer hours of eyework—extra studying, sewing and other seeing tasks. Fortunately, it is possible to make your present lamps and fixtures do double duty . . . and to save electricity without sacrificing needed light.

Here are a few practical suggestions: (1) Fitting dark-colored lamp shades with white linings can increase the amount of light from the lamp by as much as 50%. Use good white paper and fasten seams with Scotch tape. (2) Clean lamp bulbs and reflectors frequently. Dust and dirt may rob you of half the light you pay for. (3) Flaring lamp shades do a better job of spreading light than straight-sided shades. The wider the opening at top and bottom, the more useful light is directed into the room. (4) Whenever possible, make floor and table lamps serve more than one person for reading or sewing. A single lamp on a table, for example, can provide light for chairs on both sides of it. The Detroit Edison Company.

Electricity is not rationed. But its production requires coal and railroad transportation. Don't waste it!

**Gas MAKES GUNS!**

Gas heat-treating furnaces do big war jobs—hardening surfaces for tougher planes, tanks and subs. Continuous gas service—a nation's strength in both war and peace!

CONSUMERS POWER

GAS IS VITAL TO WAR PRODUCTION

Do Not WASTE Gas Just Because No Ration Tickets Are Required
