Sundays and will always expire on the Saturday nearest the end of a month. They will be used for rationing meats, fats, oils, canned goods, and all other commodities now rationed with red stamps in War Ration Book II. The small stamps bearing the pictures of field guns, tanks, ships and airplanes are not in use. Anyone who has not received Book II may obtain one by applying to his local ration board.

Overseas Christmas Mail
More than 10 million individual Christmas parcels for overseas soldiers are expected in the mailing period, September 15 to October 15. The Army Postal Service will handle full operation in the mailing public if packages are to reach soldiers in time. The public is asked to be sure to put the correct overseas mailing addresses on the packages and to wrap them securely, but in such a manner as to permit full inspection of their dispatch. Every overseas package must be opened, inspected, and rewrapped at the port of embarkation. The Army Postal Service and the U.S. Post Office Department strongly urge that packages be mailed September 15 or immediately thereafter.

Father Enlists After Sons Die
A 54 year old Wisconsin farmer whose two marine sons gave their lives in the war against Japan, is now a marine private doing guard duty somewhere with his company. In a postscript to their dispatch, Private Frank W. Winterling said it was only natural for him to enlist in the branch of the service in which his sons died in order that his daughters, Jane and Kate, might continue to enjoy "the advantages that were guaranteed to me under our system of government." One of Private Winterling's sons, Marine Corporal Joe N. Winterling, died at Bataan, and the other, Marine Sergeant Frank E. Winterling, died at Guadalcanal.

Ration Point Changes
Reflecting an improvement in civilian meat supplies, the ration cost of most lamb and bacon cuts, sirloin steak, and rib roasts has been reduced from one to two points for September. In addition several variety meats also have lower point values. Creamery butter increased two points to 12 points per pound. Country butter, however, has been assigned a value of six points per pound. The purchasing power of meat-stamps stamps in September will be a little larger than in August because the decrease in meat point values more than cancels the higher ration cost of creamery butter.

Big Demand For Straw
Farmers in the straw-producing areas will be urged to make straw available to strawboard manufacturers to enable them to keep up with very heavy requirements for shipping containers for military forces and essential civilian uses. The War Production Board is co-operating with the War Food Administration in a program designed to increase straw collection in midwestern states. Due to heavy rains and flood conditions this spring, much of the available straw crop, was destroyed. State and County War Boards are expected to assist strawboard manufacturers in locating available straw.

Blunder Will Not Be Repeated
In spite of a 1944 program designed to achieve the greatest food production in U.S. history, good soil conservation practice can be followed, recently declared Judge Marvin Jones, War Food Administrator. "True," Judge Jones said, "the U.S. can avoid the tragic blunder of the other war when land was plowed up without regard to its fitness and the soil was allowed to wash and blow away without any adequate means to prevent it. That blunder," Judge Jones promised, "will not be repeated."

Nurse Corps Funds Approved
Funds have been approved to provide complete tuition, fees, stipends, maintenance and uniforms for an anticipated 10,175 student nurses of the U.S. Cadet Nurse Corps. Over 500 state accredited schools of nursing have applied to the U.S. Public Health Service for participation in the program. To date, 67 have been approved.

More Lumber From Farms
A program to increase sharply the production of forest products from farm-owned woodlands as part of the nationwide drive to meet wartime military and essential civilian needs for lumber was announced recently by the War Food Administration. It is esti-

mated that 3½ million farms have woodlands, most of which can yield marketable products. Minimum national requirements for lumber in 1943 total 36 billion board feet. Of this amount, 2½ billion board feet are needed for boxing and crating agricultural products.

Add To Navy Chaplains Corps
Although more than 1,600 Chaplains now serve the Navy, the Coast Guard, and the Marine Corps, more must be added. "Global war," explained Captain Robert D. Workman, Chief of Chaplains, U.S.N., "means a global service of religion to the fighting force—from Alaska and Sicily to the South Pacific, and aboard the ships of the fleet on all the oceans. We must minister to more men under a greater variety of difficult situations than ever before."

Prunes And Raisins Rationed
Dried and dehydrated prunes and raisins were restored to rationing September 5. Values were placed at four points per pound. Allocations of dried prunes and raisins to Government agencies will be large. However, the balance of raisins and dried prunes available from the year's production for civilian distribution is expected to be over 90 percent of the average annual civilian supply for a five-year period preceding rationing.

Southern Workers Save Wheat
More than 3,500 domestic agricultural workers have been transported to the midwest and spring wheat area since August 1. This is part of the Government's Farm Labor Program; the War Administration said, and was done to help meet emergency harvest needs and save vitally important war crops. The workers were recruited in four southern states with the assistance of county agricultural agents. During the past few weeks, the WFA

The workers will be returned to their home states in time to help with the cotton harvest, which gets well under way in September.

"Home Front Pledge" Drive, On
A nation-wide, cooperative campaign by homemakers and merchants to hold down the cost of living and combat black marketeering is being conducted by volunteer civic committees in more than 100 communities through local drives to secure signers for a "Home Front" pledge. Nearly one million pledges have been signed already. Those signing agree (1) "I will pay no more than top legal prices" and (2) "I will accept no rationed goods without giving up ration stamps."
