NAVY AND ARMY TESTS GIVEN AT SCHOOLS

The second Qualifying Test for the Army Specialized Training Program and the Navy College Program V-12 which will be given throughout the country on Tuesday, November 9, will be administered at Farmington Public Schools and at Walled Lake Consolidated School. A pamphlet of general information which contains an admission-identification form may be obtained at either of the schools.

This form, properly filled out will admit to the test students between the ages of 17 and 21 inclusive who are recent high school graduates or who will be graduated by March 1, 1944. Intent to take the test should be made known immediately in order that the necessary test supplies may be ordered.

The same examination will be taken by both Army and Navy candidates. The examination is designed to test the aptitude and general knowledge required for the program of college training and all qualified students are urged to take the test. At the time of the test each candidate will be given a choice of service preference, but taking the test does not obligate the candidate to enlist in the service.

Successful completion of the prescribed courses may, following further officer training, lead to a commission in the Army or the Navy.
