Upon receiving my weekly copy of the Enterprise I was reminded of the fact that I had not notified you about my change in address.

sentiment...at its best!

I keep a little diary...
Of all the things I do...
At least, the most important and...
Especially the new...
Its only purpose is to keep...
A record of the past...
Of memories that I would have...
As long as I shall last...
It does not show my deepest thoughts...
And it does not embrace...
The picture and the story true...
Of every name and place...
For there are certain things in life...that wear a special crown...

There are the dreams that we have shared...
And those that are to be...
And there is the sentiment...
That you express to me...
