CONSUMERS POWER**3 MONTHS OF WAR IN ITALY**

Rivers, mountain defenses block Allies advance as present line is not far beyond line of 2 months ago as shown on above map. However, latest official report of last Monday states that the Allied Fifth Army has cracked the strongest German positions guarding Rome.

Victory(Continued from Page 2)
from the local Collector of Internal Revenue.Reduce Meat Point Value
The entire list of rationed beef items has been cut two or three ration points, making the most meat available to civilians since rationing began late last March. Many pork cuts remain at the reduced value set by OPA in mid-November, and point values of lamb, mutton, and all veal remain unchanged. This means an increase of approximately 30 per cent in the housewife's meat ration for December as compared with the ration set at the beginning of November.To Maintain Farm Structures
Farm building material makers, under sponsorship of the Farms Structures Institute and in cooperation with the War Food Administration, will hold a war conference in Chicago, December 10, on maintenance of farm structures. WFA announced recently. Key-note of the conference will be that the nation's ten and a half billion dollar investment in farm structures must be kept at top productive efficiency through adequate maintenance, with the necessary minimum of new construction. Only the value of agricultural land itself exceeds the amount of funds invested in buildings and structures on farms of the country.Keep Draft Board Informed
A farm worker who fails to keep his local selective service board informed of a change of address or occupation may be reclassified or possibly inducted into the armed forces. Only the selective service board with whom the individual has registered has authority to grant him a temporary release from non-farm work which will protect his deferred classification.Changes in Tire Regulations
Recent changes in the rationing regulations announced by OPA are: (1) Recapping of tires for commercial vehicles with truck-type camel-back is no longer rationed; (2) Tires manufactured principally from reclaimed rubber (war tires) may now be bought by those persons previously eligible for used tires. (Tire and tube rationing quotas for December are not greatly changed from those in November.)Change in Gasoline Coupons
Motorists are reminded by OPA that their "B" and "C" gasoline coupons continue to have a value of two gallons each in the east and mid-west and three gallons in the far west. On December 1, however, all new "B" and "C" coupons issued to motorists whose supplementary gasoline rationing expired became good for five gallons each throughout the country. Although each new coupon will be good for more gallons than before, motorists will not receive any additional gasoline because ration books will have correspondingly fewer coupons.Citrus Marmalades Point Freely
All marmalades made entirely of citrus fruits (principally oranges and lemons) may be bought point free, according to OPA. Marmalades made of citrus and non-citrus fruits in combination are rationed at the same point value as marmalades made wholly of non-citrus fruits.Up Jam And
Consumers will pay about two or three cents more per pound for jams, preserves, and jellies made

from apples, apple products, and frozen grapes, under a recent OPA regulation. The increases reflect increases in 1943 fruit costs to the packer.

Frozen Fruits, Series
Consumers will pay from 3¢ to a pound to 3 cents a pound more for frozen California fruit products, Concord grapes, apples and blackberries. According to OPA, these increases will allow the processors to pass on increased raw material costs on to the ultimate consumer.Copper Sulfate For '44 Crops
Sufficient copper for production of copper sulfate to protect next year's food crops from bacterial and fungus diseases will be available, WFA said recently. It is necessary, however, that consumers and distributors order and accept delivery as soon as possible if adequate quantities of copper pesticides are to be available when needed next year.ODT Asks Help For Santa Claus
Christmas shoppers have been asked to lend Santa Claus a helping hand by observing the following: (1) Shop now. Mail now. Do not wait until the "eleventh hour." (2) Carry your packages whenever possible. (3) Remember, War Bonds and Stamps make the best Christmas gifts. They are a good buy and they take minimum transportation space. ODT pointed out.Owners Note License Numbers
Car owners themselves rather than ration boards or automobile registration officials must note new license numbers on their ration books and the inspection records, under a recent OPA ruling. The action also provides that "I" coupons issued for use in 1944 by commercial vehicles and taxis will be in strips (similar to strips of motion picture tickets) rather than in book form and each coupon will be serially numbered.**BURTON HOLMES
APPEARS ON
LECTURE SERIES**

Burton Holmes, dean of world travellers and travel lecturers, will appear in person at the World Adventure Series, Detroit Institute of Arts, Woodward at Kirby, next Wednesday evening, December 15, at 8:30 to present his natural color motion pictures and lecture, "Glorious Glacier Park."

For more than fifty years, Holmes has been giving Americans the vicarious pleasure of touring the world via motion pictures accompanied by his entertaining, descriptive lectures. Few, if any, persons have travelled as much as he. Holmes took his first trip via the hitch-hike method and with a cheap box camera when in his teens, returning to his home town of Chicago to deliver his first travelogue before a neighborhood audience. Millions have heard him since then.

In his motion picture lecture next week for the World Adventure Series, Holmes will take his audience over country that long has been popular with tourists, one that will beckon to vacationists again in the postwar period. The audience will see the famed Bad Lands, Borglum's giant stone portraits in the Black Hills, and breath-taking scenery.

Keep Clothes Fit
Keep your clothes fit: Choose the right fabric for the purpose. Air clothing frequently and use dress shields to prevent harmful effects on fabric from either perspiration or the deodorant you use.**WORLD-FAMOUS
BALLET RUSSE
WILL PERFORM**

Good news for dance and music lovers!

It is announced that the world-famous Ballet Russe de Monte Carlo, with its company of one hundred dancers and musicians, will visit Detroit, appearing at the Masonic Auditorium, on evenings of December 31st, and January 1st, under the local direction of Masonic Temple Association.

This oldest and best-loved of all existing ballet companies is now engaged upon its five-year annual American transcontinental tour, the longest in its history, during the course of which it will visit more than eighty cities in the United States and Canada. Boasting the most extensive repertoire of ballets modern and traditional, greater than has been assembled by a single company, the following works will go to make the local program:

Rodeo, The Red Poppy, Swan Lake, Pas de Deux, Cuckold's Fair, Etude, Scheherazade, Bluebird.

Among the established favorites to be seen will be Alexandra Danilova, Igor Youskevitch, Frederic Franklin and Nathalie Krassovska, and the company's roster has been strengthened by the addition of the talented Ruthanna Boris, former prima ballerina of the Metropolitan Opera Company.

Michigan Mirror

(Continued from Page Two)

fits: Relief to war-time transportation through short hauls from farm to Michigan market; education on quality of Michigan products; better consumer appreciation of Michigan agriculture. . . . A 25 per cent increase in food law violations is reported. Offenders blame shortage of help.

DELINQUENCY. Parents who neglect their children and thus are indirectly responsible for repeated acts of juvenile delinquency would be liable to citation for contempt of court under a plan approved by the Michigan Juvenile Code study commission at Lansing. The commission also endorsed proposals requiring parents to pay at least half of the cost of institutionalizing or caring for offspring they have neglected.

ACCIDENTS. Just as the 1943 rise of housing accidents has been accredited to war-time services, so the experts are forecasting a rise in automobile accidents after the war. The danger is "emotional letdown," announces Maxwell Halsey, executive director of the State safety commission. Halsey said the present 35-mile limit would probably be raised gradually, first to 50.

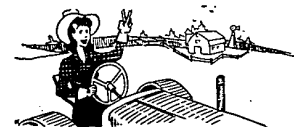

HELICOPTERS. Inspired by the rapid advance of aviation in World War II, experts now envision a future for Michigan citizens in which Detroit would become the air center of the world and 85 per cent of the state's population would have access to air travel through helicopters and huge transport planes served by a network of 240 airfields outside of Detroit. Thomas E. Walsh, director of the Michigan Board of Aeronautics, presented the above picture recently in Detroit. Use of aviation will accelerate the population trend from city to outlying suburbs and farms.

EDUCATION. Return of more than 400,000 soldiers and sailors to Michigan will swell enrollments at University of Michigan and Michigan State College to all-time peaks. The University has a \$27,000,000 program for post-war construction and expansion, based on expectancy of 18,000 students. The college likewise envisions a 10,000 student enrollment with resulting need for more classrooms and facilities. Dr. Eugene B. Elliott, chairman of the Michigan planning commission, recently revealed that educators are considering additions of thirteen and fourteen grades to urban high schools in order to train tradesmen for industries.

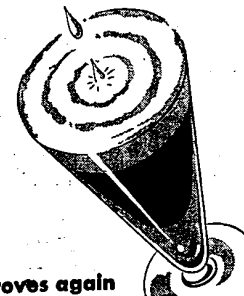

Fish Production High
Fish production per man hour is very great compared with any other means of obtaining meat, being four to ten-fold that of hog production. Trawlers in the North Atlantic yield in the neighborhood of 200,000 pounds of cod per man each season, while the California sardine catch for the seven-month season amounts to 500,000 pounds per man.**KEEP ON
