Merry-Go-Round
By Drew Pearson
More emphasis on the paper salvage campaign. At present, only 85 per cent of the nation's waste paper is being collected and salvaged. The waste paper reclaiming machinery runs at only 51 per cent of capacity. Approximately 6,000,000 tons of waste paper are normally collected and sold for paper board but now only two million.

And that's not the Half of it.

Lack of paper collection is slowing down paper mills — delaying manufacture of medicine and supply containers — slowing shipments abroad and endangering the lives of our war-wounded.

Old newspapers and magazines are VITAL. Save every scrap to win this SCRAP.
