Basis for Gelatine Salads
Cunned grapefruit juice is a good
basis for gelatine salads and desserts. It can go into sauces for
steamed and paked puddings and
can be used, in fruit whips or made
into a fruit ice that is equally delicious as an accompaniment to the
meat or dessert course.

Biggest Amazon Species
The paichee, or piraructi, one of

THE OLD JUDGE SAYS..

"The war stories I like best, Judge, are the ones by the special writers overseas who live right with our troops. They give us a better idea of how our men react

here at home."
"I agree with you, Sam. I never miss one
of those stories in the papers or magazines.
And there's one thing those writers seem to
agree on no matter where they are stationed
with our men...and that is that the men
wip have left their homes and families to go

away and fight this war don't want to come back and find that prohibition has been put over on them while they were away...either nationally of locally. They have heard about the aftempts being made and they resent, it bitterly."

"I agree with them, Judge, even though! I don't happen to drink myself. Furthermore, I don't think it's fair for us at home to be making any major changes while 10,000,000 of our fighting men are away and have no chance to express their opinions."
