Mulch Berries

Raspberries and blackberries can be mulched. Neither of these fruits should be pruned until spring. Actually it is just as well not to prune raspberry bushes at all, except to remove dead canes, particularly if they have a wire or trellis support to keep the bearing bushes from falling over to the ground when they are full of nearly ripe fruit.

Sweet Potatoes
Under the brown jackets of sweet potatoes are food values similar to those of their Irish cousin—iron, protein, starch and some vitamin B1 and C. Their golden yellow color reveals a special asset, vitamin A, which is so important in the diet of young and old alike.

KNOW ALL THE TRICKS by Blackstone

WORLD-FAMOUS MAGICIAN

THE HANDKERCHIEF
THAT WON'T BURN
when you press a lighted
cigarette against it!

THERE ARE TRICKS IN BREWING, TOO

It's one thing to keep an audience in suspense with a feat of magic. When the illusion is well done everybody applauds, because they've been entertained.

But they don't applaud presto-change-o in the quality of the beer they drink! There's no fun in that!

It is quite easy to be a beer magician. Simple enough to make a lot more beer in this period of war shortages, by a few tricks here and there.

But that wouldn't be Altes! You wouldn't enjoy that famous Aged-in, Sealed-in Flavor!

And so, since we (like all other brewers) are on strict rations of malt, there is only one possible course open to us. We're making less Altes, but making it just as good as ever!

We know you want us to do that. It's our way of thanking all our good friends for their many favors . . . and promising them all the tangy, full-bodied Altes Lager they want in better days to come!

HOW IT'S DONE—The trick shown above is easy to do. Just take an ordinary handkerchief and a lighted cigarette . . . and announce that you are about to press the lighted end against

the cloth, without burning it. While you are saying this, slip a half-dollar under the handkerchief. Then press the cigarette down on the spot under which rests the coin. The metal will absorb the heat, leaving only an ash mark on the handkerchief!
