# 2,000,000 EXTRA TONS OF WASTE PAPER NEEDED!

Today waste paper tops the list of critically short war materials. Dispatches from every battlefield call for more supplies... more boxes and cartons to pack food and medical supplies for our fighting men.

We need over 8,000,000 tons of waste paper this year... for bomb rings, shell containers, supply parachutes, gas mask canisters... and that's 2,000,000 more tons than were collected last year.

Help to shorten the war... save lives

... bring the boys home sooner. Get the children to collect waste paper... line up your clubs, church and civic organizations.

Send every scrap of waste paper to war! And keep right on gathering it, bundling it, and we march into Berlin and Tokyo!
