GAS
toughens our SHELLSEvery one of the millions of shells which are being turned out by our
war plants is heat treated to "toughen" it. Much of this vital heat-treat-
ing process is done in high automatic GAS furnaces. Yes, ladies, the
same clean blue flame that is used to cook those tempting, tender
steaks also makes metals tough. That is why more and more gas is
needed in our war plants. That is why Uncle Sam asks everyone to use
it wisely and sparingly. GAS IS AN IMPORTANT WAR FUEL — DON'T
WASTE IT IN YOUR HOME.Gas is on the front production
line. It is helping to bring the day
of victory sooner by aiding in turn-
ing out more and better fight-
ing equipment for our men.
This silent, dependable blue flame
will also work just as hard to make
your home and your life more en-
joyable as soon as this war is won.PUBLISHED IN SUPPORT OF THE GOVERNMENT'S PROGRAM

nge of work in the design stage.

Owen, former commissioner of

public works and engineering in

Dearborn, is well known here,

and with many friends and relatives

who are residents of Farmington.

Owen's position

will improve as the result of a

new state law providing \$5,000,000

to local communities on a match-

ing basis to pay for preparation

of contract plans and documents.

In Owen's opinion, not more than

50 per cent of postwar construc-

tion should be built by public agen-

cies while other states in the percent-

tage of Probate.
