HERE IS Your INVASION WEAPON
★ Don't wait... invest your savings in it today. Everything can depend on it—your freedom, your happiness and peace of mind. The eyes of the entire world are on you, those of our enemy as well as the men and women who are fighting for us. This is the zero hour, the hour of INVASION. What we do in backing up this invasion by buying more War Bonds than ever before can easily raise the morale of our fighting forces and help to lower the resistance of the enemy. NOW is the time to let the world know in no uncertain terms that we are 100% back of our men, that we intend to preserve our freedom and safeguard the future of our children.
Some people speak of buying bonds as though it meant sacrificing for them to invest in the safest, surest investment in the world, on investment that will not only help to bring peace sooner, but one that will pay them in cold cash four dollars for every three they loan Uncle Sam.
Who among us here at home can speak of sacrifice who has not crawled in mud; slept under rain-soaked blankets; and been tortured by raw fish and bird-meat while waiting to be rescued from a life-raft? Our soldiers, sailors, marines and coastguardmen face that kind of sacrifice every day yet all they are counting on us to do is invest all we can in war bonds... bonds which will equip them to fight this war to a finish—fast!
