Liquid Vitamins
On an equal weight basis the thiamine content of the liquid portion
of canned vegetables was found to
e equal to re slightly greater than
that of the solid portion. This emphasizes the dietary benefit of utilizing the liquid portion, which, on the
average, represents approximately
one-third the weight of the canned
product.

Fertilize Cover Crop.
Fertilizer applied to a winter cover crop has produced a higher yield of com following a cover crop, than when applied directly to the corn after turning under the crop.

Makes Own Nitrogen
Unlike most garden plants, the
soy doesn't draw heavily on the
soil's supply of nitrogen, but manufactures its own food from the free
nitrogen in the air.

THE OLD JUDGE SAYS...

"The men overseas don't mince any words about the way they want to find this country when they come marching home... do they, Judge?"

"They certainly don't, Herb... and they shouldn't. They're doing a masterful job fighting over there to protect our rights and they have good license to expect us to protect theirs back here at home. One thing they're mighty clear on is their stand on prohibition."

"Their position on that subject was stated ery emphatically in a poll taken recently

among American service men in England by the British Institute of Public Opinion. When hundreds of men were asked point blank how they would vote on prohibition, 85% of them stated, in unmistabile terms, that they would vote against it. There's no doubt about it, Herb... the men overseas while they're away."

"And though 1000 right Judge begans

wnne they re away."

"And they re 100% right, Judge, becausa I know how I felt when I came home after the last war—only to learn that we had been over there fighting for so impractical a thing as Prohibition."
