or shortages are blamed. It is not generally known that the serious shortage of motor trucks compelled the government to recondition used trucks for shipment to our troops overseas. In June the airplane output slumped to 1,000 units from May's total of 3,802, although heavy bomber production exceeded quotas.

The July 11 primary produced two significant results: The victory of Auditor General Vernon J. Brown of Mason over Dr. Eugene C. Keyes of Ionia for the Republican nomination of lieutenant governor, and the triumph of Edward J. Fry over two opponents, William J. Cody of Detroit and Earnest Brooks of Holland, for the Democratic nomination of governor. The two-one vote of Republicans over Democrats has been interpreted widely as a sign of a continued trend of Michigan voters to Republicanism. Marquis Child, newspaper columnist, visiting Detroit, reported a Michigan swing to Dewey, a native son.

Democrats will center their efforts to reelect President Roosevelt as a war-time "commander-in-chief." This is smart strategy, especially so since the Republic

can nominee was born in 1902 and hence is a "young man" of 42. Edward J. Fry, Democrats' standard-bearer in Michigan, is expected to rely heavily on the urban-vote in industrial centers—such as Detroit and Flint. Fry is an independent who differed with Governors Frank Murphy and Murray D. Van Wagoner and declined to go along with the state committee's selection of Brooks as a tentative nominee. He conducted a vigorous campaign and may produce a surprise or two on the stump before election day. It's Roosevelt and Fry—any resemblance of humor being purely accidental.

Baked Custard

Don't overlook the simple baked custard. It is one of the easiest of all desserts to make if you time baking carefully. Dress up a plain custard this way: When thoroughly cooled, sprinkle a generous one-half inch layer of soft brown sugar over the surface. Set under the broiler four or five inches from the flame long enough to melt the "points" of sugar. Remove from broiler. Cool, then chill. The brown sugar melts to a delightful sauce.

Flush Season

In the flush season of production from February to June, the laying flocks of the nation actually produce about 1.4 eggs a day for every person. In the rest of the year they produce only .4 of an egg a day for each person.

Gassing Woodchucks

The Fish and Wildlife Service has developed a special cartridge for gassing woodchuck dens. These are distributed through county agricultural agents.

Timely items concerning your electric service, suggestions about cooking, lighting and appliances, and many other things of interest and value will appear from time to time in "Edison Lines" Make "Edison Lines" a reading habit!

NEARLY EVERY DAY one reads of some new device to make living easier and pleasanter in the postwar home.

Automatic dishwashers, quick-freeze cabinets, automatic home laundries, garbage disposal units, television sets, fluorescent lighting, air conditioning . . . the list is endless and varied. But all have one thing in common: They all operate by ELECTRICITY. Which raises a question: Will your house wiring be able to carry this postwar burden? If you are building a new home after the war, plan to provide proper wiring. More than ever in the home of tomorrow, electricity will play a major role.

TODAY'S TASTE TEMPTER . . . Here's a tiptop summer recipe from our Home Service Department:

Curried Shrimp in Green Peppers

2 cups medium white sauce 1 cup shrimp
2 tablespoons pimiento 1 teaspoon curry

Combine all the ingredients and fill green peppers. Place in tightly covered skillet with 1/4 cup water and let steam 45 minutes.

GOOD DEED FOR THE DAY . . . Boy Scout Robert Neal, Troop 343, recently performed a public service and did his duty as a Scout by warning people away from electric wires that had fallen in an alley in Detroit.

When our line crew arrived to handle the fallen wires, Scout Neal was on the job, keeping passersby away from the live wires. He stayed on the job until all danger was removed. Hats off to Robert Neal!

A JOB TO COME HOME TO . . . More than fifty Edison men in military service already have been mustered out and have returned to their jobs. A training program is now being worked out for other war veterans when they return. Many will have gained new skills and added years of experience. Others may be physically handicapped and will need lighter work. The Company feels that merely holding a place for service men and women isn't enough.
