

Widowed Women

There are twice as many widowed women as widowed men, since the death rate is higher for men, and widowed men tend to marry younger single women.

Nose Ride

If the plow hitch is too high, the tractor pulls downward on the front end of the plow but the back end of the plow tends to lift up. This causes the plow "to ride on its nose."

COMING TO
EDGEWATER PARK

This Sunday, August 6, will see Dick Clements and his lion taming troupe, the major attraction at Edgewater Park. A marvelous breath-taking exhibition of sheer courage on the part of the trainer and carefully trained stunts by the king of the jungle, this act will provide many thrills for all who attend.

The Ivanow Troupe, whose funny routine on the horizontal bars, has pleased many park patrons, will finish their engagement this Thursday, Friday and Saturday.

All those who have missed the World's Fair Freak Show are urged to attend at least once before the park closes this fall. The man who turns his head completely around, the Dog Faced Woman and many other freaks will prove most amusing to everyone.

In addition, the Wild Animal Show, the Penny Arcade, the 22 thrill rides and a host of other attractions will provide an entertaining evening for the entire family. The Edgewater Picnic Grounds are available to all, with free cooking gas furnished by the Park.

Michigan Mirror

(Continued from Page Two)

of timber and several lumbering camps. Near Zeeland, as late as 1933, a forest fire burned subdually from August to September 29, despite the efforts of more than 600 men.

Michigan, once a lumber-producing state, has become a great industrial empire, world-famous for its automobiles and furniture and other products. Its north country is becoming, more and more, the healthful haven for vacation-seeking city dwellers from cities through the mid-west.

And when the hot and dry summers appear, a few ageless natives such as Jim Bunyon, scan the cloudless skies and sniff the air and then spit those yarns about Michigan when lumber was king and forest fires were something to tell your children about. We almost forgot to tell you about Jim Bunyon's grand-pappy. He was a Michigan lumberjack whose stature was befitting such a great state. Yip, his first name was Paul.

Brewer's Yeast

The widespread pharmaceutical use of brewer's type yeast is based on its high content of the vitamin B complex. A dried extract containing the vitamin values is available for capsules and tablets.

D-Day Dilemma For Der Fuehrer

Certainly the strategic dish being cooked up by Generals Mark W. Clark and Dwight D. Eisenhower would add to the gastric comfort of Herr Hitler & Company. As you can see, paper plays many vital roles in this global war. Countless thousands of maps are needed for planning, wrappings are needed for medical supplies, cartons for food, ammunition, blood plasma, Donald Nelson has called waste paper America's Number One Raw Material shortage. Now that the invasion is on, we on the home front must come through for our fighting men by saving every possible scrap of waste paper. It's the way to hasten victory.

VICTORY

FSA Loans Assist Veterans

Farm operating loans have been made to several hundred honorably discharged service men who had no other source of credit to finance food production, the Department of Agriculture announces. These Federal Security Administration Loans are enabling veterans of the present war to lease or buy farm land and to obtain all the necessary equipment and facilities needed to start their farm operations.

Food Allotments For Farm Help
Farms, Ranches and other non-institutional employers of seasonal workers may now apply for allotments of rationed foods to feed workers hired for 30 days or less, the Office of Price Administration announces. Previously, allotments were granted for 30 days or less. Farm workers employed for more than 30 days must continue to turn in their ration points to their employer for food served that required points.

United States War Expenditures
For the Fiscal Year, 1944, United States War Expenditures were \$39,900,000,000, as compared with \$75,100,000,000 for 1943 — an increase of almost 20 per cent—the War Production Board announces. U.S. War Expenditures amounted to \$199,900,000,000 from July 1, 1940, through June 30, 1944.

Many State Roads Need Repairs
Many state highways will be in need of repairs and rebuilding by the end of the war, according to an office of War Information report, based on data from the public road administration and state and private agencies. At present, the most impressive immediate

program calls for improving 34,000 miles of rural and urban highways as recommended by the National Interregional Highway Committee. Final action by congress is pending.

Electric Irons Coming In Fall

Of the 2,037,835 electric irons already authorized for civilian production, about 99 per cent will be household models, mostly automatic, and the remainder, commercial models, WPB says. The irons will not be rationed and some of them are expected to be available in the fall.

Handlers Are Burning Used Boxes
Large numbers of used containers have been destroyed because there have been no requests for them, the War Food Administration warns. Handlers of used orange boxes, for example, are burning them up by the thousands because many farmers have not as yet accepted these usable boxes as substitutes to pack their particular crops. Orange boxes are adequate and suitable to send many different kinds of crops to market, and farmers are being urged to ask their suppliers for as many of these used containers as they may need. Farmers should get their orders in immediately since handlers of used baskets and boxes are saving only those they are asked to save, WPB says.

OPAs Reduces Oat Ceilings
An average reduction of five cents a bushel in the ceiling prices of oats has been announced by OPA. New base prices at terminal base points range from 71 cents at Seattle, Wash. and Portland, Ore. to 83½ cents at Philadelphia, Pa. OPA says the new prices will reflect parity to producing farmers during the current crop year.

New Non-Highway Gas Coupons
New, non-highway, serially-numbered gasoline coupons, E-2 and R-2, are now being issued in strips to farmers and other non-highway users, OPA has announced. The new coupons will be good concurrently with the E-1 and R-1 coupons now in circulation. The five-gallon R-2 coupons are printed in blue ink, and the one-gallon E-2 coupons, in black ink. While nei-

Painting Good Investment;
Helps Improve Property

Painting of farm buildings is a good investment. Not only will the appearance of the farm be greatly improved but also the actual protection of the wood and metal from decay and rust will more than pay for the money, time, and effort expended in painting.

In general, only the best quality of paint should be used. The cost of painting consists of the cost of the paint itself and the cost of the labor. It takes just as much labor to put on poor paint as it does good paint. The life of good paint is many times that of poor paint.

The direction on the containers should be followed and exactly to the letter. Perhaps one of the greatest mistakes in painting is failure to completely stir and mix the paint. The preparation of the surface for painting is important. All old paint should be carefully brushed so that loose particles are removed. Painting over old material will result in a poor job with less protection and a shorter life.

Painting should never be done in damp or rainy weather. At least two full days of strong sunshine should be allowed following any rain at all. Wood with its pores filled with moisture is not in condition to make the best use of the paint put upon it.

Mr. and Mrs. Allen Catiller and children are spending two weeks at the Bacon cottage at Emptre, Michigan.

July 1, those who received wages were paid at the highest rates on record, USDA says.

DETROIT EDISON LINES

Timely items concerning your electric service, suggestions about cooking, lighting and appliances, and many other things of interest and value will appear from time to time in "Edison Lines." Make "Edison Lines" a reading habit!

A DOLLAR BUYS ABOUT TWICE AS MUCH household electricity today as it did before World War I. The average price per unit paid by our residence customers today is 46 per cent less than in 1921. If ALL your dollars did this double duty, think how living costs would drop!

PIG IN THE KITCHEN—"Mechanical pig" is the name many women have for the grinder device that gobbles up table scraps, small bones and garbage, whisks them down the sink drain. After the war you'll again be able to buy this handy electric unit. Quick, effective—and no messy garbage can!

PEOPLE LIKE our handy new electric bill, mailed to the home in neat postcard size—simple, convenient, practical—small enough to slip into your pocket. By eliminating envelopes and reducing the card size, we save over 25,000 pounds of paper a year, conserve manpower and transportation—all critical shortages now.

74 EDISON OFFICES serve Southeastern Michigan—all equipped to handle your business with Edison. There are also nearly 1,000 Edison agencies where you can pay your bills—in drug stores, confectioneries and other shops. Some of these agencies also exchange lamp bulbs. Use the one in your neighborhood.

A CAREER FOR WOMEN is what the WAC offers—an unusual wartime opportunity. In the WAC you go places, do things, meet people—get the finest physical conditioning, learn valuable skills. Serve beside our fighting men. Go to your nearest recruiting office.
