At a session of said Court held at the
Court House in the City of Pontiac, in
said County, and State, on the 5th day
of July, A.D. 1944.

Present, Honorable H. Russell Holland,
Circuit Judge.

On reading and filing the sworn bill
of complaint in this cause and the
affidavit of Burton P. Daugherty, at-
torney for plaintiff, from which it ap-
pears to the Court that the de-
fendants above named, or their unknown
heirs, devisees, legatees and assigns are
proper and necessary parties defendant
in the above entitled cause; and

It further appearing that after dili-
gent search and inquiry it cannot be
ascertained and it is not known whether
or not said defendants are living or
dead, or where any of them may reside
if living, and if dead whether they have
personal representatives or heirs living
or where they or some of them may
reside, and further that the present
whereabouts of said defendants are un-

Michigan Mirror

(Continued From Page Two)
fresh water in the world with a
depth of 1,300 feet, 300 feet below
sea level! This was the land of
the waterfalls, made famous by Long-
fellow and first recorded by Hen-
ry Rowe Schoolcraft in his "Algonic
Researches."

The story of Sault Ste. Marie is
the tale of an American northern
frontier which saw in 1841, just a
century ago, the sinking of the
first shaft for copper at Copper
Harbor in the Keweenaw penin-
sula.

The copper boom led to building
of the Soo canal which was finished
in 1855. Before the canal's com-
pletion, 15 large boats totaling
2,000 tons had been hauled over
the portage (now Portage street).
Soo merchants opposed the canal
because of the portage revenues,
and so did the military at Fort
Brady for selfish reasons. Henry
Clay denounced the venture in
Congress as "a work beyond the
remotest settlement in the United
States, if not in the moon."

Captain Eber Ward, largest
owner of lake steamships in the
1850's, said the canal locks were
"entirely too large" to be financed
successfully.

In this summer of 1944 a cease-
less fleet of lake boats traverses
through the St. Mary's locks, car-
rying iron ore from the Mesabi
range and Marquette iron
ranches and copper from the Ke-
weenaw trap range at Houghton.

The armored might of American
armies in France and Italy has
been dependent, for the most part,
on production of tanks and can-
nons and other mechanized equip-
ment and munitions made out of
steel and copper.

Here at Sault Ste. Marie is the
vital artery through which go ore-
carrying boats linking the mines
to "arsenals of democracy."
Look at the globe, and you'll see
for yourself why the United States
must henceforth protect the Mid-
West, as well as the strategic
locks, from possible enemy air at-
tack by maintaining standing de-
fenses at the Michigan Soo.

This fact alone, indisputable in
its logic, should add an attractive
"lure" to Michigan's postwar dur-
able trade. The Soo locks thus be-
come a symbol of American vigi-
lance for security and peace.

Indiana Counties
Five Indiana counties (those in
which its five large cities, Indian-
apolis, Fort Wayne, Gary, South
Bend and Evansville are located)
contributed over 40 per cent of the
property taxes levied in the state
during the 10-year period, 1933-1942,
according to a study made by the
Taxpayers Research association of
Fort Wayne. Indiana has 92 coun-
ties. The total property tax levied
in the state for the 1933-1942 decade
totalled nearly a billion dollars.

Draining Soils

On poorly drained or slow-drain-
ing soils sowing alfalfa and Ladino
clovers with timothy and redtop, agrom-
onomists say. Some red clover and
alfalfa may be used on well-drained
spots. On soils that become very
dry in summer mammoth clover
should improve yields.

Civilian Goods

The output of civilian goods in
1943 amounted to only 94.1 per cent
of the total volume of goods manu-
factured. Nevertheless the output
of civilian goods in 1943 was 94.4 per
cent larger than at the low for the
depression in 1932 when the index
was 57.

THE OLD JUDGE SAYS...

"Good morning, Doc. Your good wife tells me
you're working night and day now that so
many of the younger doctors are in the army."
"That's right, Judge, and I'm glad I'm
able to do it. Had a long letter from Harry...
that bright young fellow I was broken in to
take over my practice. He said the boys in
the service are getting the best medical care
of any armed force in our history. They
really should with all those brilliant doctors
and plenty of supplies to work with."
"Speaking of supplies, Doc, not many

people realize that a large part of the alcohol
required to make the medicines supplies that
are being used right this minute to alleviate
pain, combat infection and save human
lives, is produced by the beverage distilling
industry. For nearly two years this entire
industry has been working night and day
producing nothing but alcohol for the
government's program.
"Nobody knows better than I, Judge,
what an important contribution to our war
effort that has been."
