The Men Doing Our Fighting are Doing a Lot of Thinking

They are wondering what will happen when they return. Will there be jobs and opportunities to get ahead?

Michigan, under Republican leadership, already has the answer to that question.

The present Republican administration has created the office of Veterans' Affairs to help and advise veterans. Large appropriations have already been made to aid veterans in emergencies and for an adult education program. Michigan's rehabilitation arrangements are unequalled by any other state in the union.

At a recent state convention, the American Legion men who know what is being accomplished have gone on record as follows:

"Be it resolved that the American Legion in Convention assembled at Grand Rapids, Michigan, August 11, 1944, go on record as commending the Governor and members of the 1944 Michigan State Legislature for their sincere interest in the returning veterans and the comprehensive program presented which includes the creation of the Office of Veterans' Affairs to provide veterans with information, advice, direction and assistance through coordination of programs and services in the fields of education, health, vocational guidance and placement, together with mental care and economic security; to also establish community counseling centers for referral to all Service Agencies."

HELP YOUR SOLDIER TO VOTE

Michigan's Republican administration led the nation in legislation enabling servicemen to vote the regular state and national ballots. On request your Township, Village, City or County Clerk will furnish you an application for an absent voter's ballot. Send applications to relatives and friends in the Armed Service. Urge them to vote Republican.

VOTE *Straight* REPUBLICAN

ulators will fight this requirement.
(1) "Profits from the sale of farm land could be taxed on a graduated scale inverse to the length of time owned."

These facts are significant. Fifty-seven per cent of the decline in farm land prices during a 13-year period, following 1929 came in 1921 and 1922.

"This was due largely to non-support of farm food prices by the federal government as contrasted to the present policy of guaranteeing a price floor. The post-war cost of such a price guarantee would run about \$2 billions a year—enough to stave off a depression."

Agriculture appears to be in much better shape to face the future than it was in 1920. Between 1914 and 1920, value of farm real estate rose from \$29 to \$66 billions, whereas farm mortgages grew from \$4.7 to \$3.4 billions.

Today, it appears that the value of farm real estate will have risen between 1939 and March, 1945, from \$33.9 to \$52 billions, while mortgage debt will have FALLEN from \$6.3 to \$5.2 billions. Note the difference!

The post-war prospect of agriculture is one of chronic surpluses (within two to five years after the surrender of Japan) and an excess of farm labor over actual needs due to increased farm mechanization or technology.

Our farms are going to produce more at less effort.
Farm earnings have been relatively good during the war.

ings have been high; farm indebtedness is being reduced by thrift-wise established farmers who remember the last depression.
That is why Michigan's agricultural leaders do not want a land boom.

This farm land inflation is one of the September trends in Michigan which foreshadow the coming of V-Day.

Victory

ed skins, has been issued by OPA. Recently, sellers of Hatters' Fur have been forced to curtail their sales and production because of the abnormally high prices in the foreign market for rabbit skins. While the new Hatters' Fur prices do not lower the general level of Hatters' Fur prices previously in effect, hat manufacturers will be able to buy raw skins at lower prices or to buy a larger percentage of their requirements of Hatters' Fur from cutters at the March 1942 level of ceiling prices.

Task; We're Losing The War
Germany's supreme optimist and Goebbels' pet pupil turned up in a prison camp where an Aussie stood guard. The Nazi was invited to listen to radio news reports, the Australian News and Information Bureau says. The news the Nazi heard was strictly wonderful. This was his report to his fellow prisoners: "In 1940 we overwhelmed and defeated the British, but most of them got away through Dunkerque. The Fuehrer has allowed them to land in France again. This time they shall not escape."

Removal of time limitations that restrict the use of special shoe stamps is announced by OPA. The new provisions apply to all special shoe stamps, except that those issued to Mexican Border residents must still be used by consumers within 30 days. Previously, some special shoe stamps, such as those issued as extra rations, had to be used within time limits. The provisions affect only special shoe stamps and in no way involve the validity of regular war ration shoe stamps, either for consumer or trade use.
