Cast Your Vote

You have a big date coming up next Tuesday. You're going to hire yourself a high-salaried employee. Two main applicants for the job, names Frank and Tom, and the final decision is up to you.

Yes, Boss, you're going to pick yourself a President of the United States—a hired general manager qualified to direct the complicated machinery of your Government—a public servant to enforce the laws your representatives in Congress make—a federal employee who gets a four-year contract at \$75,000 a year.

It's the most important job you've ever had to do. Don't undertake it lightly.

The man you choose as President will carry the heaviest responsibilities in history. He will be clothed with vast, if strictly limited, powers. He will be, constitutionally, the supreme military commander of a nation in arms. In the councils of nations he will represent the might and majesty of the American people. His will be the task of winning a great war—of helping to write a lasting peace—of meeting the perplexing post-war problems of demobilization, reconversion, re-employment; it will be his job to relax the disciplines of the war, surrender wartime controls, balance the federal budget—and to do all these things without jeopardy to the nation.

The duty of choosing the man who must perform these tasks is not given to a few so-called "wise men." It is left to the collective wisdom of the people of the United States—and that means you and Americans like you.

And so, between now and Election Day, consider the great issues. Try to look beyond yourself and your own personal problems. Heed but don't be over-swayed by obvious partisan propaganda.

You're the Boss. You're the Judge and Jury. At the moment when you cast your ballot, you're the Supreme Arbitrator of the destinies of the United States of America. Cast your vote, therefore, in a spirit of mingled humility and pride. Cast it in a spirit of consecration. It is a sacrament.

Cast it only after careful thought, meditation—and prayer.

What About Bread?

We've all heard stories about the man who walked into Tiffany's in New York, and plunked down \$850 in cash for a watch. And then there's the story about the man who laid out \$1,500 in bills and said, "Give my wife anything she wants!"

These goings-on, reported by a national magazine, must make strange reading to a soldier—or to a schoolteacher who, after 15 years, still gets only \$1,500 a year, or to a widow trying to raise a family on meager insurance money.

Are we losing entirely our sense of values—and if so, why?

Those two instances reported are by no means all of the picture of prodigality. It includes \$2,000 mink coats going like hot cakes, \$100-a-day for hotel suites, \$50 for a pair of theatre tickets, or \$15 for a bottle of whisky.

Who was it said "Let 'em eat cake?"—and who would suggest, today, that bread, now and particularly in the months to come, might not be a bad idea!

The Liberal

A recent definition to come out of Washington defines a liberal as a person who is continuously asking, "What is best for all the people—not merely what is best for me personally?"

If that isn't a perfect definition of a good business man, I never heard one!

Every business man that I know lies awake nights trying to figure how he can lick his competitors by giving the world a better product for less money.

My own definition of a liberal is somebody who has nothing and wants to share it with everybody.

Churches

FIRST METHODIST

Rev. A. Stanley Stone, Minister

 Evening Service 7:45 p.m.
 Wednesday Bible Study 8:00 p.m.

Sterilize Jars

Sterilize jars and glass lids unless the processing time will be long enough that sterilization will take place during this processing. Keep jars hot until used. In using lids with rubber or composition sealing agent, follow directions recommended by the manufacturer.

Preventing Blist

Authorities on animal diseases say for the prevention of blist cattle and sheep should be kept out of clover, alfalfa and other luxuriant pasture until the dew is off. Feed some hay each morning before turning the animals out to pasture. If an animal starts blotting, place a gag such as a broomstick or bridge bit in the mouth for temporary relief and call a veterinarian immediately.

Protect Porcelain

If the base of your pressure cooker is so large that it extends beyond the heat unit of your grid range and you are afraid the heat will cause the porcelain enameled range top to crack, cut a protective ring of asbestos paper to fit around the unit.

THE SINKING SUN

CHRISTIAN SCIENCE SOCIETY
 New High School Auditorium
 Farmington

"Adam and Fallen Man" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, November 5.

The Golden Text (Romans 6:14): "Sin shall not have dominion over you: for ye are not under the law, but under grace."
 Among the Bible citations is this passage (Gen. 1:26): "And God said, Let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (516): "Man and woman as co-existent and eternal with God forever, reflected in glorified quality, the Infinite Father-Mother God."

ST. PAUL'S LUTHERAN CHURCH
 Middlebelt at Eight Mile Rd.
 E. L. Stuenkel, Pastor

Sunday school for all ages at 9:30 a.m.
 Bible class for young people and adults at 9:45 a.m.

Divine Worship at 10:45 a.m.
 Lutheran Hour, Dr. Walter A. Maser speaking, over CKLN and 500 other stations, Sunday at 12:30 p.m.
 Mid-week Bible Discussion Hour Wednesdays at 8 p.m.

NOVI BAPTIST CHURCH

Rev. Clarence K. Graham, Pastor

10:30 a.m. Unified Service: Morning Worship and Bible School combined.
 7 p.m. Youth Fellowship Hour. 8 p.m., Evangelistic Service.
 Wednesday, 8 p.m. Prayer and Bible study.

Friday, 7:30 p.m. The Senior B.Y.F. will meet for their "Fun Night."

A warm and cordial welcome awaits all who attend our services.

SALEM EVANGELICAL

Rev. Carl Schnittz, Pastor

Morning worship service, 10:00 a.m. Sunday School, 11:15 a.m.

Corn Uses

Flakes of cornstarch soaked in nitroglycerine fire our big guns. Corn is used in all foundry work in defense plants, such as casting aluminum, magnesium and other vital and critically needed metals. It is used in the making of penicillin, blood plasma and other drugs and chemicals used in the war effort. There are literally thousands of other uses, such as making soap and glue.

Preventing Blist

Authorities on animal diseases say for the prevention of blist cattle and sheep should be kept out of clover, alfalfa and other luxuriant pasture until the dew is off. Feed some hay each morning before turning the animals out to pasture. If an animal starts blotting, place a gag such as a broomstick or bridge bit in the mouth for temporary relief and call a veterinarian immediately.

Protect Porcelain

If the base of your pressure cooker is so large that it extends beyond the heat unit of your grid range and you are afraid the heat will cause the porcelain enameled range top to crack, cut a protective ring of asbestos paper to fit around the unit.

Olds-and-ends from the news counter:

State republican leaders are banking strong on a heavy upstate vote next Tuesday (Nov. 7) to overcome the Detroit-Wayne county swing to F.D.R. This latter trend has been accelerated by migration of approximately 30,000 workers, most of them from the South, to Detroit war plants. The C.I.O. Political Action Committee has been flooding these war workers with fourth term literature.

The importance of the tourist industry to the Michigan copper country is emphasized by these facts: In 1916, a peak production year before we entered the first World War, Michigan copper output was 270 million pounds. By 1918 it had declined to 93.4 million. On a basis of national production, the drop is still more significant. Keweenaw district turned out more than 75 per cent of the nation's supply in 1916; it was only 2 per cent in 1913.

When a Michigan service man becomes a patient at any government hospital in the U.S.A., a native of Michigan promptly calls to pay him a visit. It's one of the unique services of the Office of Veteran Affairs, headed by Col. Phil Pack.

Toys for Christmas will only reach about 15 per cent of prewar volume. Quality will be better, however—if that's any consolation. Because of the shortage of power and transportation, retailers are starting a movement to encourage Christmas gift shopping early in November—just after the election!

Much misunderstanding exists, it seems, about those \$2,000 loans available to returning servicemen. The law provides for loans, not gifts; the loans may be used to buy or build homes, purchase businesses, or buy farms. But Uncle Sam doesn't make the loans. He merely guarantees loans when made by banks, saving and loan companies, insurance companies.

CHRISTIAN SCIENCE SOCIETY

NEW HIGH SCHOOL AUDITORIUM, FARMINGTON

A Branch of The Mother Church, The First Church of Christ, Scientist, Boston, Massachusetts

Current Christian Science Literature on sale Wednesday evenings

ALL ARE WELCOME

Looking Back Through The Enterprise Files

TEN YEARS AGO (November 15, 1934)

Adult Interest in College Sought
 With over 40 students enrolled Wednesday evening to take the full freshman college course at Farmington's new unit of the Wayne University Freshman College, being conducted under the S.R.A.A., a vigorous appeal is being made for the active interest of adults in the school. To stimulate the adults to take an active part, courses in home economics and child-training will be added, if enough people can be enrolled.

Grid Schedule Ends Friday

Farmington High School football team will conclude its season Friday afternoon, when it meets Walled Lake in the annual battle that always provides a high mark in rivalry. Although the victory over Northville is itself almost sufficient to make the season a successful one, Farmington is quite as eager to down Walled Lake, to erase the sting of other defeats.

Eastern Stars Elect Officers

The annual election of officers of Farmington Chapter No. 239 G.E.S., was held Tuesday evening, the following officers being elected to the various stations: Allie Cox, Worthy Matron; Ralph Auten, Worthy Patron; Georgia Walters, Associate Matron; James Van Volkenburgh, Associate Patron; C. Ada Bond, Secretary; Hazel Lynch, Treasurer; Loretta Cox, Conductress and Gladys Boucher, Associate Conductress.

FIVE YEARS AGO (November 2, 1933)

Dr. Joseph Norton To Head Osteopathic Group
 Dr. Joseph Norton, well-known Farmington physician, will head the Michigan Association of Osteopathic Physicians for the coming year, following his election as president at the annual convention of the group. Dr. Norton has long been one of the most active members of the association. For the past year he has held the office of vice-president.

Seniors Lead in School Honor Roll

The Senior Class of Farmington High School carried off honors in scholarship at the end of the first term. A total of 31 members of the class of '40 won places on the honor roll. Living up to the dignity of the name, the Seniors chalked up a rate of 27.8 per cent of the class on the coveted list. "This is about the highest honor roll percentage that any class at Farmington has ever had," said Principal Max Thompson proudly.

City's Cross Appeal To Be Confirmed

The Farmington City Commission at its meeting Monday evening will confirm the filing of a cross-appeal in the Covert Road tax case. Farmington Township filed an appeal from Judge Frank L. Doty's opinion which ruled that the Township must pay the City between \$16,000 and \$11,000 in Covert Road tax payments which were inadvertently collected over a period of years by the County against the City although they were Township obligations.

and others, if the loans meet certain qualifications.

Small towns are still stopp from Domestic Commerce, monthly publication of U.S. Department of Commerce: "If high levels of employment and exchange of goods are to be maintained after the war, the small town cannot be neglected. . . . Take the case of towns of less than 25,000 population. Together with unincorporated rural areas they embrace 60 per cent of the entire population of the country. Even towns of less than 10,000, if taken with the rural areas, total as much as 55 per cent of the whole population."

Grand jury investigations are still under way at Lansing. More indictments are expected soon.

Private information from Detroit indicates that the race problem there is far from being solved. Riots in 1918 resulted in the death of 25 Negroes and nine white persons. Trouble is feared when war plant cutbacks force Negroes with little seniority out of highly paid jobs.

With nearly 2,000,000 tractors on American farms, output per worker has risen more than 50 per cent since the beginning of the century. More food, fewer farmers—what's the answer? Chemistry may be it; whereby human and animal foods will become raw materials for industry. Example:

"You'll have to wait."—Sgt. Victor Loomis, Lansing, Mich. (Digging a foxhole when German bearing white flag approached, Sgt. Loomis, head of the man stand by until job was finished. He then accompanied prisoner to a machine gun nest where 9 German privates and an officer also surrendered.)

"Absolutely unnerved and calm" says the news:—Adm. Kiyoshi Hasegawa, gov.-gen. of Formosa, commenting in unintentionally paradoxical English on 1000-plane raid. . . .

"I certainly wouldn't advise you" (Continued on Page Seven)

BUILD UP YOUR BANK ACCOUNT

The next four years are going to be highly important ones in your life. Ready money in a bank account will help you to grasp new opportunities. It will help to bridge emergencies. It will enable you to buy new peacetime goods without sacrificing the precious war bonds which you have laid away for future security.

This bank will be glad to receive your regular deposits toward a happy peacetime tomorrow.
