Ted R. Gamble, National director of the War Reliance Division is a leader of the millions of volunteers who are selling you the extra War Bonds needed to beat the Japs and complete the war job in Europe, put the wartime needs of Americans in there. It's good advice to follow not only during war years but every day. You can't help too much to win a war.

Today's community and national war loan totals should reflect your personal determination to see the war through. Regardless of what the War Bond score is today, it is not high enough unless you have gone to the limit of your buying power.

Lack of Chewing Fatal

Failure to chew food thoroughly is a major cause of digestive troubles, especially among the elderly. Consequences of a lifetime of hasty eating are likely to come home to roost in the late fifties and sixties. The partial loss of teeth, or ill-fitting plates, may be responsible for sketchy mastication. Getting the teeth put into proper shape to do their vital share in the digestive process is true economy; it means savings in health, in time, and in money which would be spent later in doctor bills.
