

**Small Temperature Loss**  
When you open and close the door to your refrigerator, you lose very little of the "cold"—much less than most people think. In fact, engineers found by test that opening a large-size refrigerator the same number of times a home freezer is opened each day—even in air as hot as 90 degrees—increased the electricity consumed by less than 2 per cent.

**First Medical School**  
The first medical school in the United States was founded at the University of Pennsylvania in 1765.

Lies the Might of America

#### FOOD FOR ALL

Besides Iowa's great waving fields of corn, its fields of other grains will feed millions, provide jobs for thousands and add to the Nation's wealth to guarantee War Bonds. Almost 10 million acres are at work. Annually the harvest amounts to 396 million bushels, worth \$471,469,000. Iowa grows 201 million bushels of oats, 38 million bushels of soybeans and 53 million pounds of popcorn. Onions, asparagus and melons sprout and ripen there to help feed the world and win the war.

#### WEST POINT PARK

By L. A. Ault

Mrs. Mary Weiske, Detroit, was the guest of Mrs. J. W. Ault Monday of last week.  
Louis Graham is adding a room to his property on Mayfield Ave.  
Mrs. O. R. Ault and daughters, Dolores and Shirley, were shopping in downtown Detroit Friday.  
Mrs. Margaret Martin and Mrs. Lloyd Rhoades, both of Hubbard Ave., are recovering from painful, though not serious injuries received Sunday morning of last week when the car in which they were returning from a social affair in Detroit, was sideswiped by another car. Mrs. Rhoades' father, Freeman Carter, was the driver of their car. It is understood that damages were covered by insurance.

Freda Ault was a visitor in Highland Park Thursday.  
Albert Owen is still quite ill.  
Robert Dean, infant son of Mr. and Mrs. Harold McVicar, was quite ill during the week.  
Marvin Addis was seriously ill last week.

Miss Edith Brautigam, from near Pittsburgh, Pa., was calling on Mr. and Mrs. Austin Ault and other relatives in this vicinity on Thursday and Friday.

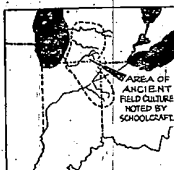

The Senior Girl Scouts, under the leadership of Mrs. Howard Middleton, held an enjoyable session at the home of Miss Audrey Roberts, Mayfield Ave., Monday evening of last week.

A Stanley Brush Demonstration party was held at the home of Mrs. M. E. Ault, Mayfield Ave., Friday evening. Guests were ladies of the immediate neighborhood and the affair was a success socially as well as otherwise. The door prize was won by Mrs. Clinton Ault and the drawing contest prize by Mrs. Harold McVicar. For

Earthworks may have served in war; hence, this "fort" in Macomb County.

Moundbuilders also tilled the soil. Pioneers noted their cultivations.

Symmetry of moundbuilders' garden beds puzzled whites in southwest Michigan.

Indians mined for copper in northern Michigan. The pits may be visited today.

#### WEST FARMINGTON

By Mrs. Sarah Knapp

(October 11, 1945).  
Mr. and Mrs. Smith Green called on Mrs. Bob McDevitt and children at Hartland Thursday.  
Micky McDevitt and Pat McDevitt spent a few days with Mr. and Mrs. Smith Green.  
Mr. and Mrs. David Long and Mrs. Lawrence Giegler called on Mr. and Mrs. Charles Heliker Friday afternoon.

Mrs. Walter Henke opened her house for the meeting of the W.C.T.U. on Tuesday.  
Mrs. George Heliker has been at Ann Arbor visiting her daughter, Mrs. Eugene Cleveland.

#### Incendiary Bombs

Incendiary bombs in current use comprise magnesium, thermite, phosphorus and oil varieties. In sticks, usually dropped in clusters, to "blockburners" or jetsonable tanks. The effect of some of these bombs against Japanese construction has been adequately demonstrated in the all-indeed raids on Tokyo, Kobe, Osaka, Nagoya and Yokohama.

## If he can, you can!

WAR HAS BROUGHT some pretty grim sights to a doughboy's eyes. But some of the worst have not been in battle.

There's been the look of hunger in a little girl's face watching you eat a second helping of hash. The silent look of youngsters lined up at a garbage can waiting for refuse from your mess kit. The sight of thousands of "displaced persons," hungry and ragged, wandering across Europe.

And the doughboy knows that his fight for peace is not won—while there are everywhere hunger and disease and desperation.

He knows that our government is doing everything possible to send food and other supplies to those who stood with us in the war. But there is much that governments cannot do. For emergencies arise quickly and call for medicine, clothing and shelter (500,000 destitute war orphans are roaming the countryside of Yugoslavia alone).

That's why the allied relief societies

—which your money supports through your Community War Fund—are so important.

And our G.I. knows that help that comes from the pockets and hearts of Americans is doing more than we know to bind up the wounds of war, and restore faith in the future. And without this faith there can be no peace—for Europe, or for us.

You give only once a year to all the great causes combined in your Community War Fund, which, in turn, supports all the 21 agencies of the National War Fund. This year, make your gift bigger than ever before.

OCTOBER 8 to 29

## for Today and Tomorrow

Always, Michigan industries have had the know-how and—even in the pit of depression—the courage to expand and prepare. Hence, when war came Michigan could take the lead and become the "Arsenal of Democracy."

So, too, Michigan's electrical needs always have been anticipated by The Detroit Edison Company. Long before the war, orders had been placed for two 100,000-horsepower gen-

erators. One was delivered and put in operation during the war. The second is being installed and will be in operation sometime in 1946. We expect that more current will be used for peace than was needed for war. There will be no "standing in line" for that current.

The Detroit Edison Company is ready to serve all the electrical needs of southeastern Michigan today and tomorrow.
