

Pocket Radio
A "shirt-pocket" radio, no larger than a cigarette case, soon will be put into production. It weighs only 12 ounces, has self-contained battery and employs 4 inch-long tubes. The speaker is an earpiece of the hearing aid type.

Vegetable Storage
In making plans for storage of vegetables remember that parsnips shrivel badly in dry air and also require high humidity. Some people leave them in the ground through the winter.

Important Material
No other raw material furnishes employment and a livelihood to so many of the nation's population as cotton.

Segregate Poultry
Practical experience and scientific investigations have shown that segregating poultry, that is, raising turkeys, chickens and other kinds of poultry only with their own kind, helps prevent the spread of parasitic and other poultry diseases.

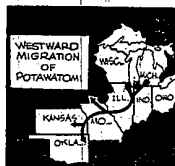

"MICHIGAN AND THE OLD NORTHWEST" — The Three Fires

Among first Northwesters to meet Europeans were the Huron (Iroquois).

Michigan's "Three Fires" met the whites at a period starting after 1608.

Potawatomi remnants moved to eastern Kansas after the Chicago treaty, 1833.

Most numerous tribe of Old Northwest were Chippewa, also called Ojibwa.

Soy Oil Purposeful
Soybean oil is "ambidextrous," on one hand filling requirements for edible oils, and on the other having characteristics of drying oils. Its usage for edible purposes such as shortenings, margarine, and salad and cooking oils has increased markedly in recent years. It also is used in industry as a drying oil in paints and varnishes, and is employed in soap, linoleum, oilcloth and printing inks.

Dampen Clothes
Hang clothes in the shade until just the right dampness for ironing, or roll up in a Turkish towel. Avoid sprinkling. It may leave the fabric with a spotty look.

WEST POINT PARK

Mr. and Mrs. George Brautigam, from near Pittsburgh, Pa., arrived Friday evening for a week's visit with Mrs. Brautigam's sister, Mrs. J. W. Ault, and other relatives in this vicinity.
Albert Owen, Mayfield Ave., was rushed in a serious condition to Session's Hospital, Northville, the first of the week but is now said to be resting more comfortably.
Mrs. Austin Ault was called by the illness of her daughter, Mrs. Jack Oman, to Toledo the latter part of the week. However, Mrs. Oman is already considerably improved and, with her baby daughter, Ruth Ann, expects to return with her mother to West Point Park this week end and have several days' convalescence at the home of her parents.
While making improvements on his home on Shady Side Avenue a week ago Ralph Voorhees slipped and fell against a beam and received painful sprains and bruises requiring the attention of a physician. Although able to continue his daily employment, he has been in a much crippled condition.
Freda Ault visited the Camerons in Highland Park Friday.
Mrs. Virginia Ernest Jones, who has been residing with her parents on Shady Side Ave., has moved to Boston, where her soldier husband is now located.
Mrs. M. E. Ault was a guest at a luncheon given in honor of Mrs. George Dugas, visiting here from northern Michigan. Mrs. Edwin L. Johnson, over on Clarita Ave., was hostess.
Mrs. Walter Dixon from over on Britton Road visited with Grandma Ault one evening this last week.
John Altama, Jr., and Charles

Bolyard enjoyed a hunting trip near West Branch this last weekend.
Mr. and Mrs. Herman Keyser of Huntington Woods were visiting relatives in West Point Park Sunday evening.
Mrs. Margaret Martin is spending a few days with relatives in Detroit.
Mr. and Mrs. Robert Borland from Redford were visitors in the Folger subdivision Sunday.
Rev. Gordon Cameron, from Redford called at the home of Mrs. J. W. Ault Sunday.
Mrs. Lewis Graham entertained guests from Hazel Park Wednesday.
Hallow'een parties were in order in all the rooms of Pierson School Friday. Such gay get-togethers, with participants in masquerade attire will be numerous all through the community this week.
O. R. Ault and Edwin L. Johnson engaged in a successful hunting expedition during the last weekend.
A kindergarten child on his way to Pierson School Friday morning was accidentally knocked down by a larger boy on a bicycle. His hurts became so painful that it was necessary for a teacher to carry him home.
Forn Johnson, from Clarita Ave., called on Eva Willets of Mayfield Ave. Friday.
Homer Middlewood has now received his honorable discharge and is receiving greetings from friends and neighbors in this vicinity.
Ross Garfield Cameron, son of Mr. and Mrs. Nelson Cameron, of Redford, was a visitor at the Neighborhood Bible School Sunday morning and had birthday greetings sung for him by the group assembled. Ross was four years old on October 28th. Greetings were also extended Mrs. Norman Kauranen, who celebrated a birthday the same week.
Rally Day was observed at the Neighborhood Bible School Sunday morning. Inspirational talks were given by both Rev. and Mrs. Cameron.
Rev. Gordon Cameron preached at the Vesper meeting in the Neighborhood Church Sunday evening. In order to accommodate those who must have dinner ever before going to the church.

WEST FARMINGTON

Mrs. Mary Heliker and Mrs. Sarah Murray, of Pontiac spent Sunday with Mr. and Mrs. Charles Heliker.
The Walled Lake W.C.T.U. will hold a regular meeting at the home of Mrs. Mae Johns at Walled Lake. All members of West Farmington are requested to be present.
Nancy Ann Knapp, little daughter of S. I. C. and Mrs. William Knapp spent Friday and Saturday with her grandparents, Mr. and Mrs. Irvin Knapp.
Mr. and Mrs. Nick Sawant of Detroit and Mrs. William Westlake and two children spent Sunday at the home of Mrs. William Knapp.
Ringling Rocks
Ringling Hill, Ringling Rocks park, about two miles northeast of Pottstown, Pa., is one of seven places in Pennsylvania where ringling rocks are found. When struck quickly with certain implements the rocks give off musical notes, the tones varying with size and quality of the rock. Not all the rocks in these sections ring but only those which vibrate freely because of the manner in which they are supported. Varying in size from a few pounds to several tons, the rocks are all of one kind—a diabase or trap rock. All are composed of the same minerals, principally augite and labradorite. The lathe-shaped crystals in the labradorite, when studied under a microscope, are seen to be lying in all directions, forming a network in which it is believed sound waves can develop.
