Vitamin Loss
While investigating whether gi
or tin containers caused the great
loss of vitamin C in canned veg
bles, research workers found it
the material used for making the material uses to container had no effect on vitamin C but the loss was caused by the air left in the can. The amount of vitamin C lost was in proportion to the amount of headspace left unfilled in the container.

Conquering Hessian Fly
Thirty-nine years of investigations, costing \$450,000, to learn methods of reducing damage from Hesslar. It are estimated to save up to
\$55,000,000 a year throughout the
winter wheat-prowing areas.

If when changing your furniture, you find a flat crushed surface is exposed, pilece a damp cloth over the spot and run a hot iron lightly over it. Brush the tufts gently in the direction of the pile.

THERE ISN'T ALWAYS ROOM FOR ONE MORE-

Ol "Leaping Lena" ain't what she used to be. One more bobby-soxer and Lena would give up with a well-earned wheeze and a sigh. Likewise, homes wired for yesterday's electrical needs are inadequate for today's electrical living. Yet many home owners have become accustomed to inadequate wiring-to frequent blown fuses because of an overloaded circuit. Making sure that your home wiring is up to date is your assurance of being able to use the electrical appliances you want in your home when you want . to use them where you want to use them. It means having your home furnishings arranged to suit your taste, with outlets always convenient. It also means that ieshould accommodate a new frozenfood cabinet, electric range, automatic laundry, electric dishwasher and many other electrical appliances. And, of course, if your plans for tomorrow include a brand-new home, adequate wiring is an "A-1" item to check in plans and specifications.

of advertisements prepared in cooperation tractors in your area in the interest of insuring adequate wiring for every home. When you build or remodel, be sure your home is properly wired. For wiring recommenda-tions, call your local Detroit Edison office.
