One of the prettiest brides of the season was Clara Roberts, eldest daughter of Mr. and Mrs. Joseph Roberts of Mayfield Avenue, when she was united in marriage to Edward J. Kochanek at Our Lady of Sorrows Church at nine o'clock Saturday morning, August 17.

Sour Milk

In baking, sour milk may be substituted for sweet milk, cup for cup, thus giving lightness, tenderness and flavor to hot breads and gingerbread and spice cake. For every cup of really sour milk use ½ teaspoon of soda. For milk just beginning to turn sour, use ¼ teaspoon soda for each cup of milk. It is better to use too little soda than too much because too much gives your baked products a bad flavor, bad odor and a yellow color. Mix the soda with the dry ingredients rather than with the milk because all the gas should be saved to leaven the baked product.

Nitrogen Deficiency

Nitrogen deficiency is aggravated by the fact that nitrogen is lost by leaching in greater amounts than either phosphorus or potash.
