### QUILL AND SCROLL MEMBERSHIP ANTICIPATED

In order for young journalists to qualify for their membership in the International Quill and Scroll Society, the students interested must be able to meet the following requirements:

1. They must be in the upper third of their class in scholastic standing;
2. They must be recommended by the supervisor or by the committee governing publications;
3. They must be either of Junior-senior standing, or a post-graduate;
4. They may be elected from either newspaper or year-book staffs;
5. They must be approved by the executive secretary of the society.

When the candidates are approved and accepted they pay two dollars for a year's subscription to the "Quill and Scroll" magazine, an individual membership certificate and the Society's gold badge. This year instead of initiating the candidates at assembly, there may be a private banquet held exclusively for the initiates and last year's members. The electing of new officers will be held after the memberships have been accepted. No date for the banquet has been set.

### SENIOR CLASS SPONSORS VALENTINE DANCE

The senior class sponsored a girl-bird dance Saturday, February 15, in the High School Gymnasium. This was the first girl-bird dance given since the Sadie Hawkins dance in November.

The entertainment consisted of duets by Jerry Kosmensky and Elga Nystrom; Bob Weaver and Bob Chesley. Bob Chesley also gave a solo on the piano as well as singing "The Dark Town Folks" Club. Don Kobman sang two songs, "Passo" and "For Sentimental Reasons". Red hearts and cupid covered the walls and stage, while the doors were made to look like big hearts. From the baskets hung red and white ercpe paper streamers. The seniors sold refreshments in the cafeteria.

**Wife Must Weave**  
In Guatemala, famous for its beautifully woven and embroidered cloths, one of the tests of the worthiness of a wife is her ability to weave.

### EDITORIAL

Because of the crowded conditions of our school the practice of courts has become one of major importance.

Certain groups of people who seem anxious to assemble and consequently to congest the halls between classes are the worst offenders. These folks are generally divided into three groups: the primroses who sit at the foot of one locker mirror, the finks who must have a last look at each other just before the bell rings, and those who insist upon blocking the whole hall with their pilgrimages to the drinking fountain. These things are very easily corrected, however, if you, the student body, cooperate. Comb your hair during the noon hour or before school. Try to let your confab with your friends wait. Put your drinking fountain lines against the walls to avoid crowding fellow students. These things done, we're sure you'll find the halls much easier to get through. Bealton, you will have fewer tardy slips to fill out.

### New Members Join The Varsity Club

The Varsity Club held its first meeting of 1947 Tuesday in the Todd's room. Including the eleven new members who made their first letters in football, the club now has a membership of 32. The laws for the constitution were decided and are to be drawn up by John Greco, secretary, for approval by the Student Council. Several committees were appointed, one to look into the possibilities of getting pins and the other to decide the top ten "Queens" of F. H. S., who will be announced at a later date.

### Monitor System To Be Instituted

The Student Council having met Monday, a monitor system was decided upon. There will be four monitors, two in the basement, one on each of the other floors. Those selected were the various members of the council who have study halls. Others will be asked if needed. Those passing through the halls during the school time must have a pass. On the pass there must be the following: place from, place going to, teacher's signature, and time required to make errand. It is the hope of the Student Council that all students will work in accordance with the plan, thus making the system more efficient.

### Puerto Rican Industry

Three-fourths of Puerto Ricans are white; the rest Negroes or of mixed blood. Spanish is the language of the people; English is common in business and government. Sugar production is easily the largest industry. Turned out normally at the rate of about a million tons a year, sugar accounts for other industries such as the manufacture of molasses and the distillation of rum and alcohol. The growing and processing of coffee, tobacco and citrus fruits follow the production of sugar in the island's industrial scheme.

**REGISTRATION NOTICE FOR ELECTION TO BE HELD MONDAY, APRIL 7, 1947**

To the Qualified Electors of the City of Farmington, County of Oakland, State of Michigan:

Notice is hereby given that in conformity with the "Michigan Election Law", I, the undersigned City Clerk will, upon any day except Sunday and a legal holiday, the day of any regular or special election or a primary election, receive for registration the name of any voter, in said City not already registered, who may apply to me personally for such registration.

Provided, however, that I can receive no names for registration during the time intervening between the twentieth day before any regular, special or official primary election and the day of such election.

Notice is further given to the qualified electors of the City that the undersigned Clerk of said City will register qualified electors who may apply at my office in the City Hall, located at 33312 Grand River Avenue, Farmington, Michigan, Tuesday, March 18, 1947, the twentieth day preceding said election, the last day for general registration, by personal application, for said election, from 8:00 o'clock a.m. until 8:00 o'clock p.m. on said day for the purpose of reviewing the registration and registering such of the qualified electors in said City as shall properly apply therefor.

The name of no person but an actual resident of the precinct at the time of registration, and entitled under the Constitution, if remaining such a resident, to vote at the next election, shall be entered in the registration book.

**Rural Telephones Coming Through!**

Our big 5-year \$13,500,000 rural expansion and improvement program is moving right along. Last year we added nearly 10,000 miles of wire and provided telephone service for 24,000 more customers in rural areas.

And while extending service to new rural users, we made improvements for many present customers. For example, we reduced the number of parties per line on nearly 3,000 lines.

In addition, in 1946 we liberalized our rural construction plan allowing an average of one-half mile of free line construction for each new rural customer.

At the present time some 11,000 rural applicants in Michigan Bell territory are still waiting for service. And we're keeping right at the job until every last one of them has a telephone, and rural service is better than ever.
