How many of these does your
telephone save you every day?

• Imagine trying to see in person everybody you talk to on the telephone in a single day. Think of the time and the shoe leather... the gasoline or carfare it would take • We've installed thousands of new telephones in recent years. And thousands are still to be installed for folks now waiting for service. Each new telephone makes your telephone that much more valuable. It means more people you can call—more jobs your telephone can do for you.

Wayne Lad Needs Hospital Care

Everyone knows that Christmas comes on December 25—but it is going to come earlier than that this year for little Tommy Scott, nine years old, of 2379 Cherry Hill Road. Tommy is suffering from a dreaded, incurable disease, a form of cancer of the glands, and he has been given only a few months to live by the family physician, Dr. John J. Angel of Wayne.

Right now the major concern of Tommy's parents, Mr. and Mrs. Lester Scott, is to raise sufficient money that Tommy may be returned to St. Mary's Hospital, where there is a slim chance that mustard gas treatment might halt the spread of the cancer. Tommy was in the hospital until the family's money disappeared, and then he was brought home. He must return if the treatments are given.

Tommy's dad is working overtime at the Timken plant whenever possible, and he has been trying to find part-time work in Wayne, in addition to his regular work, in order that the family might save enough money to take Tommy

back to St. Mary's and to give him a good Christmas. Even at that it is difficult to do much for Tommy, who has five brothers and sisters: Lester, 10, Bonnie Lou, 8, John, 7, Harry, 6, and Martha Ann, 4, and money does not go very far in this day of high prices.

Friends and neighbors are doing as much as they can, and with their help the Scotts were able to buy Tommy a Mickey Mouse watch that he has been waiting for so long. The neighbors also bought him a second hand radio so that he might be able to hear his favorite programs.

Tommy knows he is sick and needs medical attention desperately, but while he was given all possible medical treatment by Wayne County, it will take the care and kindness given by the sisters at St. Mary's Hospital if anything more is to be done for him.

The Scotts are determined that Tommy shall be made happy, and that everything possible will be done for the little boy, "even if we have to starve," they declared.

Most of the ladies expressed themselves as being in accord with the President's aims and purposes, but declared individual circumstances must frequently alter cases. Because of economic conditions, most housewives of this community seem already practicing practically the same precautions suggested by government officials. A number of interesting food recipes and net economies were brought out during the friendly interchange of ideas. Letters from European friends were

quoted as well as travelers regarding human hunger conditions in Europe. Mrs. Charles Armstrong described proper methods of sending food packages overseas. Mrs. Diehle supplied delicious home-made cake for serving during the social hour. Mrs. Armstrong agreed to supply a cake for the next session, which will be Wednesday, October 22.

HERE IS A 4-UNIT DIESEL FREIGHT LOCOMOTIVE NOW OPERATED BY 2 MEN (1 ENGINEER AND 1 FIREMAN)

2 BRAKEMEN AND 1 CONDUCTOR COMPLETE THE CREW OF THIS TRAIN [One brakeman usually rides in the locomotive in freight service]

—BUT THE UNION LEADERS WANT 15 EXTRA "SITTERS" ON THIS TRAIN... 3 ENGINEERS, 3 FIREMEN, 6 BRAKEMEN AND 3 CONDUCTORS... TO GO ALONG FOR THE RIDE AT FULL PAY!

It's to your interest to know about this proposed
feather-bedding!

For feather-bedding, this mock work proposal takes the cake. But it is only one of 44 "rules" demands filed by the leaders of the operating unions. If all these demands were granted, they would cost the railroads an added \$468,000,000 A YEAR.

Increased Wages, Too

On top of these "rules" changes, the leaders of the operating unions have filed an additional demand for a wage increase of over 80 per cent. If granted, this would be an added cost to the railroads of \$400,000,000 a year.

\$468,000,000 To Non-Operating Employees

In addition to this, an Arbitration Board has just granted a wage increase of 16 1/4 cents an hour to the million employees represented by the 17 non-operating unions. This will cost the railroads \$468,000,000 a year.

Where Will The Money Come From?

Where will all the money come from to pay these increases? They total several times as much as the railroads made in 1946 or will make in 1947.

In July, the railroads filed an application for increased freight rates to close the gap which then existed between wage and material costs, and railroad revenues. Since then it has been necessary, because of further increases in wages and material costs, to supplement that petition and to ask for an additional freight rate

increase. No other course is open.

Railroads Do Not Run For Employees Alone

Railroads are operated for the benefit of not one, but several groups—shippers, passengers, employees, stockholders, and the general public. The interest of all must be served—and that cannot be done unless the railroads can operate efficiently and economically, and unless they are allowed to earn sufficient revenues to provide the kind of transportation service this country MUST HAVE.
