From where I sit... by Joe Marsh

How to Put Up with Women's Styles

When Will Dudley's missus finally gave in to the new-style longer skirts, Will was mighty critical at first. Allowed as how women were a slave to fashion... ought to dress to please their husbands and not style designers.

Perhaps the way somebody dresses isn't always to our taste—just as Will's glass of beer may be another person's cider.

But from where I sit, those little differences aren't important—unless we go out of our way to make them so, by being hypercritical. As Will says now: "Well, anyway, those long skirts hide a multitude of sins"... and lets it go at that!
