

CHRISTOPHER WREN and Leonardo da Vinci would view this with awe. Each tried his hand at devising a cooling system. This dehumidifier with a walnut finish is styled like a piece of furniture, making it an attractive addition to any room in the house. It cuts down on the mugginess of summer days by removing as much as 25 pints of water a day from the atmosphere.

WAYNE JONES SAYS: Don't wait to do your landscaping because you don't know how! We will draw a plan for your home, and give you our expert advice on what to plant and how to plant it. We draw free plans to scale for our customers. Just bring in your house and lot dimensions and a picture, if possible. Your title survey usually has all this information on it. We can do the planting for you, for an additional labor charge.
