Farmington Enterprise
To The Editor:
The large group of Clarenceville citizens who attended the "Fact Finders" open meeting Monday evening were greatly disappointed to learn that the "facts" as presented were nothing more or less than a list of comparative statistics and personal opinions.

Material progress is to be expected along with the growth of a community but the people expect their school administration to show equal progress. The parents are showing renewed interest in their school which should be a good sign to everyone and they are now attempting to break down the barrier which is responsible for the present lack of confidence in our school board.

If all school board meetings and actions were open to the public, as they should be according to general practice and the wishes of the people, rumors would be non-existent and the setting of neighbor against neighbor would not be with us.

Let the "Fact Finding" group ask themselves: are we to believe and give credence to these criticisms of our school with the idea of improving it? Or are we to remain complacent and brand these people with the stigma of trouble-makers and traitors?

However, it's now too late, "Fact Finders". The election next Monday, June 14, will pave the way for renewed progress in understanding and good will.

Signed,
Robert Dennis,
Clarenceville Better Schools Association.

Mrs. Charles Langley had as dinner guests Sunday, Mr. and Mrs. Aubrey Langley, daughter Judy and son Tommy and Mr. and Mrs. Sherrell Langley, all of Lincoln Park.
