Martin "40"
AMERICA'S OUTSTANDING OUTBOARD!
IT'S THE NEW

OUTBOARD MOTOR
See it now!

It's truly remarkable! You won't believe it until you see it. It's one motor that does what you always thought it would take two motors to do. It carries you over the water at speeds that take your breath away and it throats down to perfect, crawling, mile-an-hour trolling. It's the new MARTIN MOTOR... flood-proof, sputter-proof... instant starting. Its sporting performance secret lies in a revolutionary new principle... mechanically-controlled poppet valves! MARTIN gives you everything you would ordinarily expect in an outboard motor, plus many highly-important exclusive features.

See it fallas, it's a beauty!

Local Women Attend Home Extension Camp

Three women from the West Farmington Extension group attended the Annual Camp for Extension Clubs of Ingham and Oakland Counties, held recently at Waldenwoods, near Hartland.

They include Mrs. Dorothy Korman, Mrs. Fred Wilkinson and Mrs. C. A. Fattison. A total of seventeen women attended from Oakland County and eleven from Ingham county. The entire camp lasted 4 days, from June 9 through June 12.

Highlights of the Camp program were the crafts offered and the group discussions directed by Mrs. Lennah K. Backus, Child Development and Parent Education Specialist of Michigan State College. Craft work offered included etched aluminum trays, hammered copper and aluminum dishes, finishing individual wood salad bowls, stencil painting of fabric and cork, and weaving at the Hartland Area Crafts loom in Hartland. Mrs. Lowena Murphy, Home Demonstration Agent of Ingham County, instructed in metal work and wood finishing, and Mrs. Martina J. Lindahl, Manager of Hartland Area Crafts, instructed in weaving.

Mrs. Backus directed the discussion sessions into stimulating topics. At the first meeting all the women present were divided into groups of six and made their contributions on the topic — "What are some of the family conflicts in our homes today? All problems presented were compiled and used as a basis for discussion the second day when the topic was — "How can we solve the problems of family living in our homes? Again, the women divided into small groups of six, were assigned a problem, and made their contributions for solving it. Mrs. Backus plans to compile the information gathered at this Camp for further use.

After the Camp was finished, an evaluation was made by those who attended the entire time. Three things were discussed.

1. Of what value the Camp had been, and what they had enjoyed about it.
2. What crafts and program they wished to have another year.
3. What improvements might be made another year.

Use Extra Caution With Sprays, MSC Expert Says

Spray safely — that's the advice given by Fred Roth, farm safety specialist at Michigan State college, for this time of year when many sprays and gusts are being used on farms.

These materials can be dangerous if handled incorrectly, he warns. Spraying and dusting materials should be stored in closed metal containers away from kitchen food stocks. A respirator should be used when spraying or dusting if material blows back in the operator's face. Flames can sometimes be dangerous and the body should be kept well covered — do not spray with arms or legs bare. Empty bags should be burned, taking care to avoid exposure to fumes.

So That's Where It Comes From!

Open-eyed children of Michigan State college veteran students got a treat early this month. Carol, one of the leading milk producers of the college herd, was visiting the newly constructed nursery in the student housing area. When the herdman showed them how to get the good and healthful milk from Carol the children were intensely interested. And Carol is just one of the million dairy cows in Michigan that's providing record quantities in this month of June, which is Dairy Month.

Oakland County To Send Delegates To The Annual 4-H Club Week

Twenty-one Oakland County 4-H boys and girls have been named to attend the annual 4-H Club week to be held at Michigan State College, East Lansing, June 29 to July 2.

Oakland County's delegation will be part of the more than 650 4-H Club youths expected to attend, according to an announcement by R. Lynox Lewis, County 4-H Club Agent.

The theme of the annual summer conference for 41 southern Michigan counties will be "Better Homes for Better Citizenship." The number of delegates that attend from each county is based on enrollment and the number of members completing projects.

Special features of this year's camp will be a trip to the state capitol in Lansing and a tour of the college barns.

Numerous programs have been arranged for the young people. Speakers from the College will include Dean E. L. Anthony of the School of Agriculture; Dean Marie Dye of the School of Home Economics; Dean H. C. Basher of the Basic College and others. The camp will be conducted by R. J. Baldwin, retiring Director of the Extension Service.

Panel discussions, style reviews and reports by 4-H members who attended the national 4-H Club camp will be other highlights of the program. Living facilities have been arranged in the College guest village.

Those attending from Oakland County will include: Chris Babler, Orionville; Joan Bradley, Orionville; Gene Burkhardt, Davidsburg; Jo Ann Butrick, Birmingham; Charles Carpenter, Pontiac; Virginia Carson, Milford; Mary Cook, Or-

EARLY WORM GETS BIRD

Growing poultry generally pick up a few worms. It's best to begin treatment for large roundworms and cecal worms when your birds are young — 4 to 8 weeks. Use Dr. Salisbury's AVI-TON as a flock treatment, mixed in mash. Feed 3 consecutive days each month. Efficient, economical, easy to use. Start Dr. Salisbury's AVI-TON treatments now.

MSC Forester Prepares Folder On Tree Planting

Farmers who are contemplating planting trees for wind protection in rural areas will find many helpful tips in a recent publication of the Michigan State college Cooperative Extension Service.

W. Ira Bull, MSC forester, has prepared a folder which discusses planting trees for windbreaks, shields, berms, and snowbreaks. Diagrams showing locations and suggested layouts of windbreaks are included as well as instructions for spacing the trees.

Copies are available from county agricultural agents or the folder may be secured by writing to the Bulletin Office, Michigan State college, East Lansing, Michigan. Ask for folder F-418, "Wind Protection for Rural Michigan."

The convention is UNANIMOUS!

ELECTricity the People's Choice!

ELECTricity Ready to Serve You!

The People's Friend!

A Real Public Servant!

On the Job Every Minute!

SENATOR KILOWATT SAYS:

It's a landslide, folks, a regular walkaway! Every precinct and every ward is all-out for electricity!

There's no mystery about these votes for volts. Electricity does literally thousands of jobs in homes—in factories—and on the farms. Most of us use it hundreds of times a day. It does these jobs quickly—easily—cheaply—dependably. In fact, electricity does most jobs far better than any other way!

Live electrically... and enjoy the difference!

THE DETROIT EDISON CO.
