**"HIS RECORD DESERVES RE-ELECTION TO THE STATE SENATE"**

**RE-ELECT GEORGE N. HIGGINS**

TO THE  
**STATE SENATE**

REPUBLICAN 12th DISTRICT

**Primary Election Candidates Express Their Views**

In order for readers of the Farmington Enterprise to be better informed regarding the candidates running for public office in the primary election to be held Tuesday, September 14, the following sketches are being published. These do not represent an endorsement by the Enterprise. The Farmington Enterprise believes that an informed public can make its own decision and should make it. This is only material submitted by candidates who have voluntarily chosen to do so.

**REPRESENTATIVE IN CONGRESS — 17th District**  
**GEORGE A. DONDERO**, chairman of the Committee on Public Works of the United States House of Representatives, seeks reelection as Representative in Congress for the 17th Congressional District. For years Congressman Dondero fought wasteful Federal spending. His present position as Chairman enabled him to carefully scrutinize every river and harbor and flood control improvement and be thereby saved the taxpayers millions of dollars.

On a merit basis, Dondero got action on the Clinton River-Red Run flood control project for relief of South Oakland County and a preliminary examination and survey of River Rouge to determine what may be done to eliminate floods in Northwest Detroit and adjoining communities.

Representative Dondero obtained passage of the Federal-Aid Highway Act. The state of Michigan will receive nearly \$30,000,000 for the construction of township, county and state roads.

Through Dondero's leadership, Michigan colleges and universities have been given temporary war housing without cost for the benefit of veterans.

Dondero voted for the best Housing Bill that could be secured. Congressman Dondero has succeeded in exposing subversive activities by American Communists and their fellow travelers so effectively that he has been singled out for an intensive smear campaign by radicals and subversive groups.

Representative Dondero has won recognition for his close attention to legislative duties. He is high in the councils of the leadership of his Party and has been called upon repeatedly to preside over, the House of Representatives.

**MILTON F. COONEY**, Congress faces two critical problems — how to cut the high cost of living and what shall be done to preserve the American way of life, threatened as it is within the United States.

Over 23 Years Experience

**RE-ELECT HUBBELL SHERIFF**  
 OAKLAND COUNTY  
 22 Years Taxpayer Waterford Township

**STATE SENATE**  
**GEORGE HIGGINS** was the first to introduce legislation for a veteran's bonus, first to win financial relief for cities and villages and first to plug the numerous loopholes in the state sales tax act effecting the sale of automobiles.

As far back as 1943, while the country was still at war, Higgins introduced a veteran's bonus bill. Had his 1943 bill been adopted, the cost would be nearly liquidated now and veterans would not find themselves bearing the burden of their own bonus.

Higgins has been responsible for legislation which has saved the state many millions of dollars. Back in 1939 he broke into the spotlight with legislation which more than doubled state sales tax collections on automobile sales. This measure increased state revenue by more than \$10,000,000 and plugged loopholes which were draining the state treasury of many more millions.

Higgins pledges the same high quality service he has rendered in the past while serving the Oakland-Washtenaw district in the Senate and House of Representatives. He promises legislation which will not only add \$12,000,000 from the general fund to be added to the present 7 1/2 millions or a total of 19 1/2 millions, to be used for improvement of streets and sewers and thereby eliminating the present condition of a flooded basement with every rain storm.

He has gone on record as being opposed to any additional real estate taxes. "The state has enough taxes now," he declared. "If properly distributed, the taxes now collected by the state would prove sufficient."
